The Outside Looking In — The Inside Looking Out

Julie Larick brushes away a piece of lint from her watercolor paper.

These pep band members concentrate on playing the right notes at the basketball game.

Have you ever taken a good look at our school lately? Not just the inside but the outside too?

If you have, then you probably have seen on the inside the classrooms where all your friends are. Some of them are hard at work studying and others, of course, are disrupting class and just having fun. Teachers standing in front of the class presenting a lesson and sometimes pounding phrases into your head that you have never even heard of. They are seen giving special help to their students and assigning homework of which we all know, some students do not even do.

What would our school do without the principals and their secretaries. You see them hard at work getting ready for a new school year and then following through with the new policies they have set up.

Cooks and Custodians?? What do they do for our school. The cooks prepare a meal for 2,000 students each day. What would it be like to cook that much? And of course our custodians. They clean up the school and get it in shape for the next day with everything spotless. Every day, the same old things; Pick up after the students that litter; but the matrons and custodians are needed.

Last but not least you see all of the students roaming the halls. Just ask a sophomore what a large high school is like to find your way around on the first day of school. Then there are the more experienced students, the Juniors. They have had more time to get to know the place. Then the **Seniors** who just can't wait to graduate.

Now take a look at the outside; you see the beautiful school that you attend every day. You see the new parking lot for the teachers and the freshly paved parking lot for the students in back. There are the junior highs with all those freshmen who think the high school is so great — Boy do they have a lot to learn — and they are looking forward to that special moment when they can say they go to FHS.

The high school is really more than you think. Just think, if it wasn't for schools and teachers — where would everybody be? If we don't have education, we wouldn't get good jobs. If we don't have good jobs, we don't have good pay and you know it is not easy to live with these rising prices! So be thankful for our schools — we need them.

Remember this — THE OUTSIDE IS LOOKING IN — for an education. THE INSIDE IS LOOKING OUT — for the future and better opportunities.

Dr. William Manuel makes the closing remarks at the football banquet.

Many hours of hard work are spent in decorating the lockers for the boys.

Time's passing — are you? Don't let time slip away in your life. Have fun while you can and enjoy every minute.

[illegible] a great Monday started things rolling with D[illegible]'s Day. Peter's pants were acceptable for those who didn't have any overalls. Tuesday was Ties day. Look at those bright, cheerful ties. Then followed as hat day, and Thursday was T-shirt day. [illegible] too cold out). Friday probably had the most participation [illegible] your school, wear blue and gold day.

We also had our first annual Goog Show Tuesday and Wednesday. I won't go into much detail, but unfortunately a few [illegible] immature students ruined what was otherwise a very good show. Many thanks to Sonny Wareham and Bete Bensch[illegible] for their spirit, and Better luck next year, Goog Show. [illegible] Maybe your audience will grow up.

But the week wasn't over yet. The Homecoming parade started around 6:30 Friday evening and ran from Central Junior High to Donnell Stadium. The theme this year was "Those were the days" and among the outstanding processions was the Senior Barber Shop Quartet float (later chosen as the best float), the Juniors' Fifty float, an FHS Faculty float starring Dr. Manuel, a Choir float of the twenties, several cheerleading floats from different schools, the FHS Band, and last but not least rode the Homecoming King and Queen nominees in flashy old fashioned cars. The parade, organized by Jeff Gephart and Miss Janis Hesket, Adviser, was a great success.

Following the parade was the football game. For many the game offered a chance to visit with returning graduates, but those who watched the game saw the Mighty Trojans overwhelm the opposers.

Saturday night was the Homecoming dance, which can be described in one word — GREAT! The band, food, and decorations were all good and even some of the football jocks overcame their shyways and danced a little.

So the Homecoming week finally ended — at least until next year. Our appreciation goes to the FHS Student Council for giving us a week filled with fun.

Terry Heater and Dee Boyer study the play being made on the field. It appears to have been chilly that night.

Inexpressible joy is in her face as Sandy Doyle becomes 77-78 Homecoming Queen.

Winter Formal — Silver Dreams

Rick Bell and Margaret Bellamy dance to the music of the Lee Howard Band.

Silver Dreams was the theme of this year's Winter Formal.

Joe Snow and Erica Hennigs display their dancing talent. They were just two of the 200 people that attended.

A lot of preparation was taken to make the dance a success. Work started on Saturday morning and was completed by time of the dance. The snow sure did get in the way of a lot of activities this year; one of which was the Winter Formal. February 4, was the first scheduled date for the dance, but because of the "Great 1978 Blizzard" it had to be postponed until February 25, 1978. The band was from Ann Arbor, Michigan. It was the Lee Howard Band and at least 200 people were present. Many students and their dates proved to be another John Travolta, doing dances from "Saturday Night Fever."

"SHOWBOAT"

This year the Findlay High Music and Theatre departments chose to revive one of America's great masterpieces, "Show Boat." It is the only American musical of the 1920's to be performed today. It has enjoyed three Broadway revivals in 1932, 1946, and 1966 as well as three motion picture versions in 1929, 1936, and 1951. The original libretto has been altered to suit changing tastes, racial attitudes and the differing aesthetics of stage and screen, but its endurance has made the work a classic. The show has had a glittering history. It is based on Edna Ferber's novel, but there are some differences. In the novel, Magnolia is only 13 when Julie leaves and plays on the stage many years before Ravenal enters the scene; Andy is swept overboard when Kim is a young girl; Julie becomes a secretary to a Chicago gambler; Kim becomes successful on the stage and marries a famous producer and Magnolia goes back to manage the Cotton Blossom after Parthy's death. But what is most important is that Kern and Hammerstein combined to write the classic that lives today.

With the pruning complete, "Show Boat" became more than a musical comedy. It was a musical play, a drama-with-song, that could not help but touch upon the life of anyone who viewed it. One of the most remarkable features is the role of Magnolia who appears to be the first character in the entire literature of the American Musical Theatre to change and mature before the audience's eyes.

This type of change is what seems to typify our production. Many new things were tried this year. One cannot fail to notice the set. This is the first year in a long time that the set has played such an important part in the production. It would not have been possible if Ned Pahl and the carpentry classes had not been willing to build the structure. Cooperation did not stop here. Vicki Hardesty, the librarian, found a book on the history of all the productions of "Show Boat" and was willing to make special arrangements to purchase it.

With a new orchestral director, some changes were also made. Two nights of nothing but music rehearsals before the show were tried. Dave Hanson and Don Jefferies tried to set the tempo of the songs between the orchestra and soloists. Peg Firmin took charge of all the dancing with small rehearsals for such scenes as "Can't Help Lovin' Dat Man of Mine" and "Life Upon the Wicked Stage."

Besides all of the chorus lines, the main characters in this year's production were: Gaylord Ravenal, Tod Morger; Magnolia Hawks, Linda Daughtery; Captain Andy Hawks, Chris Kern; Parthy Hawks, Beth Benschneider; Frank Schultz, John Gordon; Ellie Mae Chipley, Erica Hennigs; Steve Baker, Dave Akin; and Julie (Dozier) LaVerne, Lee Ann Morgan. Congratulations to all those that participated — A JOB WELL DONE!

An In and Outside Look

Have you ever had one of those days when you run down the hall as fast as you can saying, "Today I won't be late!" and just as you get there the teacher shuts the door in your face? How about the day you stand in the middle of all the traffic so it's impossible for that foxy guy to get through without completely knocking you off your feet; On the other hand, you've been trying to catch; just "accidentally" bump into her, then help her pick up her books and maybe, just maybe . . . What about the numerous teachers that find their shoes much more interesting than the couple across the hall. But there is always the case of at least one or two that sneak around trying to find them "in the act." What about the time a guy threw a snowball in the hall and caused his friend to do an acrobatic flip on it. How many times have you seen strange animals roaming through the halls (no, not your friends) but the real things. Hey girls, remember when you wouldn't go near Mr. Montgomery cause of the mistletoe hanging above his desk. And how about the principals sneaking around ducking behind corners trying to find couples in PDA. It sure can be exciting on normal days of school and believe it or not, you do have fun when you are a kid.

P-O-P! What would happen if this bubble would break? Just imagine. You guessed it. Patty Zitkovick probably had it all over her face.

Imagination Comes Alive With Land of Oz

The winter musical put on by the Drama Clubbers have done "The Wizard of OZ" directed by Mrs. Barbara Gebhardt. Though obviously a children's play, both young and old enjoyed it. This play was the first sell-out (not including the Operetta) Mrs. Gebhardt has ever had, and needless to say she was proud of her cast and crews. The show was a combination of music selections from the movie and the play written by Adele Thane. This combination made for an hour and a half of bright color, music, and fantasy. The three shows went reasonably smoothly with only one exception. The set crashed during the Saturday afternoon performance. Everyone that was involved said that they really enjoyed themselves and that they will miss the practices and co-members. There were also many "little people" in the show — namely the munchkins and winkies along with the good witch of the North, the good witch of the South, and the Wicked Witch of the West. The cast also went on a field trip to eleven of the grade schools to stir up excitement among the children and the job worked. The success of the show depended greatly on the cast and with a cast like this one, there was no way to go wrong. Congratulations are in order for them — Great Job!

The main cast for the "Wizard of OZ" was: The cowardly lion — Chris Kern; Kelly Clemens — the scarecrow; Dorothy — Beth Benschneider; Linda Daugherty — Toto; and Tod Morger as the Tinman.

BELOW MIDDLE: Scott tells Celia not to worry about the kids moving to the west — they will make it on their own.

The family portrait for Friendship with newlyweds Tod Morger and Beth Benschneider with Tod's parents Scott Harshman and Celia Cronnenwett.

The first Drama Club production of this school year was the result of a speech class project. Linda Daugherty, a senior, wrote "Friendship" last year, and Mrs. Gebhardt decided Linda should direct it.

"Friendship" is a musical filled with love songs based on a fictional family in a small town. A pair of newlyweds, Tod Morger and Beth Benschneider are leaving the family and moving west, but before they go they attend one last town dance. Scott Harshman and Celia Cronenwett, as the parents, manage to get both of their daughters to go, too; their teenage daughter, Mindy Felgar, and Rich Corning, and their twelve-year old, Chris Predmore, with the neighbor boy Sonny Wareham. Technical director for the show was Chris Kern. Mark Wagner did an outstanding job as pianist.

During the post-show in Mrs. Gebhardt's newly remodeled basement, Linda said, "It was exciting to see eight characters step out of my paper and come to life on stage." Mrs. G. agreed, saying it was "great to see an idea come to fruition like that. It's a really neat thing."

"Friendship" was a financial success which is a near impossibility for a season opener. Once again, the cast crews, and director/playwright had it when they needed it — typical at FHS.

A Thurber Carnival

ABOVE: Dave Akin, Mindy Felgar, and Sara Ringle are relaxing on the park bench in one of the Thurber sketches.

A collection of James Thurber's comedy sketches formed this year's winter show, "A Thurber Carnival." Mrs. Judi Griffin directed the play and chose Beth Benschneider as her Student Director, John Zoll as technical director, and a multi-talented company to portray the many characters. Directing fourteen different sketches is no easy job. Mrs. Griffin was happy to give Beth the responsibility of directing two of them. Asked about the experience, Beth replied, "It was."

"Thurber" was an interesting play to produce, not only because of the several characters each player had to create and the many set changes, but for the rehearsals during the first bad snowstorm of the winter season. Car breakdowns became common — Scott Harshman's died in the middle of US 224 and had to be towed into town. Luckily, everyone survived the rehearsals and the show was performed very well. Attendance was great, too, marking the first time (In who knows how long) when every show of the first semester turned a profit.

Many periods were involved in the production and much thanks goes to all of them. "It was a wonderful group and I loved them all," said Mrs. Griffin. Things sometimes got hectic, but, in Thurber style, Chris Kern remarked, "It was a nervous sort of play." Credit goes especially to Mark Elderbrock, pianist; Holly Walters and the set crews; Sandy Sweet's light crew; Carol Nolan's make-up crew; Andi Swisher on props; Rich Corning on publicity; the program and ticket crews; Beth, John, and "GRIFF." And of course, the cast: Seniors Dave Akin, Steve Campbell, Scott Harshman, Chris Kern, Darlene Moore, Lee Ann Morgan, Sara Ringle, and Brad "Sonny" Wareham. Juniors Kelly Clemens and Mindy Felgar. Sophomores Anne Fitzgerald and Megan Rooney.

THANKS TO EVERYONE FOR A GREAT SHOW!

Kelly Clemens acts "COOL."

The FHS theatre season closed with six one-act plays directed by seniors in Mrs. Gebhardt's Directing class. The shows were on a rotation schedule of three a night, two nights apiece, and arranged so the sets would be easiest for changes. There are a great many good memories tied up in these six productions, but there is too little space to list all the good times shared by everyone involved with them. However, we can list the people who created these memories.

CASTS: **Michael.** Tom Smith as Michael; John Gordon as his friend at the children's home. Tammy Roth as Michael's mother he never knew, and Dave Akin and Megan Rooney as her parents, Mrs. Gebhardt served as Chris Kerns creative consultant.

The Still Alarm. Brad Boney and Scott Paul as the absured Englishmen. Keith Risser and Mark Elderbrock as the firemen, and Nancy Ford as the Bellboy.

Last of the Red-Hot Lovers. Steve Campbell as Barney Cashman, Diana Coronado, Chris Predmore, and Kathleen Kern as the female friends of Barney.

Louder, I Can't Hear You. Carol Nolan as Marge Brown. Rich Corning, Lisa Zimmerly, and Tom Smith as the non-attentive family. Brad Boney and Janet Schober as the family psychologist and his spacey nurse.

Zoo Story. Paul Brannigan as Peter and Phil Goetz as Jerry.

Between Time and Timbuktu. Todd Phillips as Stoney. Erma McGinley, Margaret Bellamy, Sara Ringle, Scott Switzer, Scott Paul, Dave Akin, Rick McCartney, Scott Harshman, Steve Campbell, Keith Risser, Rich Corning, Nancy Ford, Jenni Walsh, Steve Chando, Amy Bauman, and Chris Predmore.

Sideshow: Songs were sung by Tod Morger and Linda Daugherty, which were accompanied by Mark Elderbrock.

Crews: Ron Helmuth, Joanne Brim, Laura Cowan, Andi Swisher, Reba Goodwin, Anne Nikles, Kathy Meek, Tracy Waaland, Eileen Streeter, Mark Beegle, Holly Walters, Jeff Wobser, and the CASTS.

A special thanks goes to all these people and the directors for ending the year on such a good note. FHS THEATRE DOES IT AGAIN!

Class of 79 Presents — "Come Sail Away"

Juniors transformed the gymnasium into a tropical island with the theme being, "COME SAIL AWAY."

Miss Siebenaler and Miss Grist spent many hours helping the students work on decorations.

Only a few minor problems interferred, but what would a special event be without problems. Everything, however turned out for the best after the decorations finally arrived. The decorations had to be picked up in Indiana by Mr. Hall, a faculty member.

Decorations enhanced the cafeteria, entrance hallway and gym. The entrance to the gym was a large cave. Once inside the cave, a treasure chest of jewels glittered. On the other side of the gym was a full size sail boat attached to the dock which also made a good entrance and exit. The feature corner was the tiki garden. Couples had their pictures taken in this garden.

Everyone enjoyed the dance, refreshments and decorations, which proved to be a memorable evening to S-A-I-L A-W-A-Y.

Couples dance to the sound of "FATHER." An electric violin provided variety.

Russell Gronbach and his date pose on the dock which was used as an entrance to the gym.

REST TIME: Besides the heat and a little rain, students kept dancing until they couldn't dance any more.

Refreshments were served by the sophomores. On the menu was: open faced sandwiches, punch, cookies, and assorted nuts.

Many couples took frequent breaks after dancing so fast.

Despite the hot muggy weather, couples enjoyed the beautiful decorations and refreshments.

Post Prom '78

Three different groups of people left the First Presbyterian Church about 1:15 a.m. bound for the three Post-Prom locations. One group went to Cinema World for "The Other Side of the Mountain, Part Two." Another busload went to Shady Grove to play putt-putt or use the driving range. The third group went bowling at Timber Lanes. After all the groups had been to all three locations, a breakfast of rolls and beverages was held at the First Presbyterian for the blurry-eyed couples.

According to one male student, "Other Side of the Mountain" was "a really good movie for Post-Prom, if you know what I mean." At any rate, most people enjoyed the movie. Naturally enough, many of the people in the last group slept through it, but they said they liked what they saw of it.

Parents helped with the refreshments at the church. They too were able to survive the all nighter.

They were awake enough to enjoy fresh donuts from Spud-Nuts at 6:00 a.m.

The greens were a little wet after the rain, but putt-putt was the next most popular.

Sara Ringle, Leeann Morgan, Dave Clymer, Tod Morger, Linda Daugherty, Chris Kern, Rick Corning and Tammy Roth seem to be wide awake for the movie.

ABOVE: Rick McCartney, Kathy Barkey, Kathy Leathers and Mark Rodabaugh enjoy the movie, "The Other Side of the Mountain, Part Two."
RIGHT: Bowling was one of the favored post-prom activities.

Many Post-Prom-goers chose to just use the Shady Grove Driving Range instead of playing putt-putt, too. One golfer remarked, "We just kept going back for more buckets of balls, thinking how much money it would've cost any other time." A majority, though played putt-putt, too, even when they were dead-tired.

Bowling was the scene of some of the wilder antics of the night (or morning). Even Miss Ackerman tried to show she could take the all-night affair and still bowl a relatively decent game — which she did! By the last group's turn on the lanes, people were falling asleep on the benches, forgetting their bowling order, and "accidentally" ripping scoresheets in two. Still some records managed to be set or broken, for instance, the consecutive gutter-ball record and most errors on a scoresheet for an evening.

The numbers had thinned by breakfast time. Some people had gone off to watch the sun come up, or gone home, or . . . There were still a few awake enough to eat a bite and then go home to sleep all day. The non-denominational church service to have been held sort of went by the wayside, but Dan Musgrave of St. Andrew's United Methodist wasn't too upset, though; he just used his material for Youth Fellowship that evening.

Ask anyone — they will tell you they had a good time.

Oh Yes the Changes!!

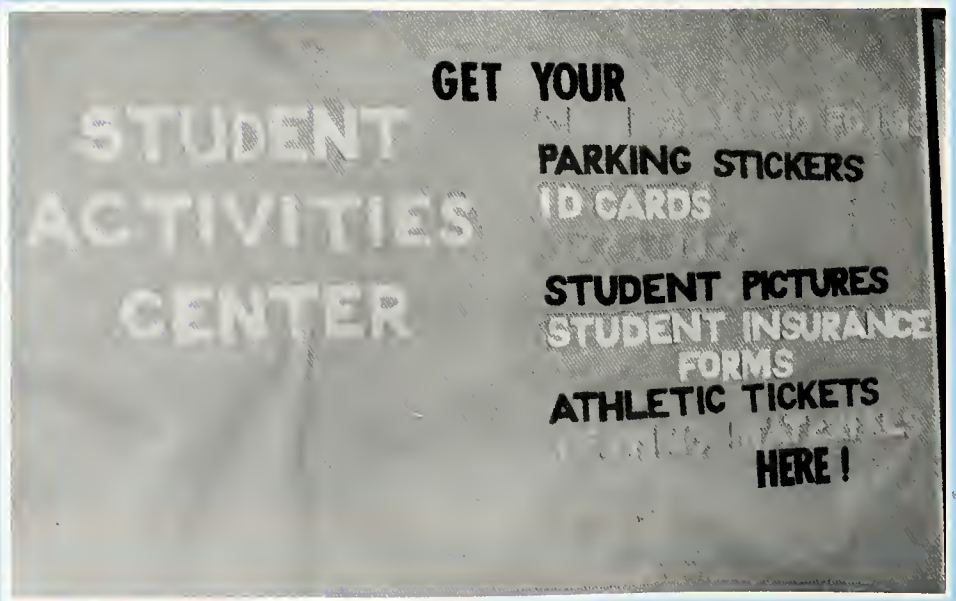
Sounds from outer space?? Not really! This is the new Dimension phone system that entered the city schools last summer. Compared to the old PBX board, this system saves time and energy. Jean Fenimore the head operator says, "Now there are only buttons to push instead of cords and levers to pull." The new telephones took a little time to get used to, but everyone made it through the initiation. Mrs. Flo Fuller sits in front of the two telephone sets. The one in the background was so much larger and complex. The new system occupies less space and the equipment is all stored in the size of a refrigerator.

Starting the new school year brought changes for all the students at the high school. For the sophomores it meant adjusting to high school life, getting up earlier, more homework and a wider variety of classes were just some of the changes the juniors found themselves in the middle; able to "help" the sophomores find classes but still frowned on by the seniors. And once again the seniors were placed on the throne, a position they have dreamed about for a long time. Outlook changes were numerous but with the new year came policy changes and physical differences.

Revisions were made in the attendance policy — becoming a strict influence on skipping classes. Ten absences in a semester class meant a loss of credit, likewise with twenty absences in a full year course. The tardiness policy was another major change which meant three tardies equaling one absence.

Physical differences included a new parking lot in front of the building for the faculty and also the paving of the remainder of the student parking lot in the back; counselors being moved to individual offices throughout the school. The SAC was formed — Student Activities Center to handle all student needs such as athletic tickets, ID cards and test registration. If you ever get lost, just find your way to the SAC office and get help.

All of these changes were for the improvement of the school and pride is taken in the school by all the students. It looks good!



Student Activities Center goes into action once again. A brand new line-up. A student center to help student problems.

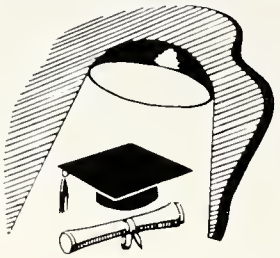
Ending With a Commencement



"Some men see things as they are and say why? I dream things that never were and say why not?" This quote by Robert F. Kennedy centered the theme of 1978 graduation ceremonies. Sunday, June 4 was the red letter day for 630 FHS seniors. The 106th Baccalaureate-Commencement graduated the students under the sunny skies at Donnell Memorial Stadium. Ann Redpath was the class valedictorian and Sara Ringle was the salutatorian.

Rev. James Foster of St. Andrews United Methodist Church gave the first and last words as he presented the invocation and benediction. Father Frank Kehres of St. Michael's Catholic Church delivered the message. The class speakers each gave their own speech in fitting with the theme.

Friends and families gathered to witness the event, as these graduating seniors commenced their new lives as adults.

BC Title Once Again (Co- Champions)

Way to go Trojans! Another year of great teamwork. The Trojans had a 6-4 season this year. The only difference was the coaches combined the Varsity and Jr. Varsity teams for stronger offense and defensive lines. The Trojans pulled off some marvelous plays this year. Like the trick play from seven years ago which made headlines when they "pulled off a not so well known" longest hike maneuver for a 73 yard touchdown made by Steve Lamb who took an across the field hike from Butch Hunyadi. Coach Jones dug this play out of the files and took his team to a triumphant victory over Sandusky 21-6.

For the second time in 22 years the Buckeye Conference championship was wrapped up. The "77" campaign saw the Trojans, who sported the 6-4 record while sharing the championship with Sandusky. Losses to Elyria and Lorain Senior dimmed the varsity's hope of a sole crown in the Buckeye Conference, but the Trojans placed two starters on the Buckeye Conference first team. Three starters were also named to the second team along with four honorable mentions.

Although, sometimes Coach Jones's hair got a little messed out of place from yanking it out when some of Findlay's "comedy of errors" took place. All in all, the team worked hard and played well for a successful season, and also the Buckeye Conference.

RIGHT: This sure doesn't look like football practice. It looks more like a cookout. This is the way the Trojans spent their last two weeks of summer practice. After a hard day on the field, the boys sat down to a delicious steak they cooked themselves. Jeff Essinger, Don Brown and Hank Kramer show their talent for cooking steak and hamburgers.

THIS IS WHAT DID IT!! This trick play jolted Sandusky on the opening play and FHS won the game. "I was sick, worrying about that play," Jones said with relief after the game. "I know it made our kids feel awfully good." Steve Lamb took the across the field hike from Butch Hunyadi which led to the victory over Sandusky, 21-6. "I was anxious," Hunyadi said. "I told myself I had to count 1,001 and then hike it." Findlay last used this play on September 25, 1970, against Hamilton Garfield with quarterback Keith Woodruff making the snap to end Jeff Bixler for a 70-yard score.

The cheerleaders decorated the guys' lockers for the entire football season. They stayed very late some evenings to fill them with goodies so the players would not go hungry.

Awards — Awards

This year's football season was pulled together with Coach Jones's new girdle (given by the cheerleaders). No, really we must congratulate everyone having anything to do with football for our season. The hard work paid off by winning the Buckeye Conference Co-Championship. The annual banquet was given to help feed the hungry coaches and team and also of course to honor the persons for their outstanding performance. These included: MVP — most improved player, voted on by his team was Steve Reichenbach. Steve also received Buckeye Conference line back of the year. Butch Hunyadi earned lineman of the year in the BC. Other "awards" were given to the coaches (decided on by the Buckeye Conference coaches) such as Coach Mezacapa's nose mitten and Mr. Heater's step stool that explains "Step here before yelling." And now Mr. DeFrench won't have to worry about his legs getting cold with his present of the bottom portion of a pair of jeans that he can sew onto his shorts. These were just a few of the many adventures occurring at this year's banquet.

ABOVE MIDDLE: Peek-a-boo! Who's behind that Playtex Living girdle? Why it must be Coach Bill Jones. This present was received from the cheerleaders to pull things together.

Finishing up the season with a 6-2 record, the JV Football team put a total of 137 points on the scoreboard. The team was quarterbacked by John Kidd and Jeff Slough. The leading rushers were Tim Seek, Rick Maroney, Darryl Preston and Randy Smaltz. Jim Geyer, the leading receiver, had 13 receptions which totaled 247 yards. Tim Seek led the team in scoring. He ended the season with 36 points compared to Randy Smaltz's 24 points.

The defensive was led by Bill Beach, Steve Klein, and Neil Teatsorth. Bill Beach led in tackles with a total of 68, including assisted tackles. Steve Klein and Neil Teatsorth had 61 and 59 respectively. Bill Beach had 3 fumble recoveries and Brian Smith 3 interceptions.

Many of the JV players also played on the varsity team and did a fine job.

Cross Country Has

Here they come. The fellows run down the paved road for their afternoon practice.

Bill Murphy really pours it on.

Coach John Didich had a helper at the awards banquet. His daughter helped pass out the awards.

The race begins. Randy Mowery and Bill McCleave (striped shirts) fight for a position.

Another Great Season

Randy Mowery runs through a bit of shade at the golf course which is much cooler than that hot sun.

Dave Holbert moves out in front of the rest of the runners.

Adrian Benavides rounds the corner to bring another victory to the Cross-Country Team.

Coach Didich watches the final stretch of the meet, hoping FHS will win again.

The 1977 FHS Cross Country Season was a successful one. The Trojans having shut out several teams, earned many honors.

The Highlight of the season came on October 25, when the Trojan Harriers ran away with the Buckeye Conference Championship. Findlay tallied 29 points and outscored the next nearest opponent by 23 points.

This outstanding performance was accomplished without the aid of Bill McCleave, Findlay's number two runner. Bill was sidelined with apendicitis the morning of the Sectional meet.

McCleave wasn't the only Trojan who was injured during the season. In fact, Bill Murphy was the **only** runner who remained healthy throughout the entire season.

Despite the injuries and illnesses, five Findlay Harriers placed in the top fourteen places, which constitute the all conference teams. Randy Mowery, Dave Hulbert, and Bruce Lee earned the honor of first team-all-buckeye conference, with Randy Mowery being the individual meet champion. Adrian Benavides and Bill Miles earned the distinction of second team-all-buckeye conference.

Winning the Conference Championship was nothing new to coach John Didich who always has winning seasons. In the last eight years, four of Coach Didich's teams have won the Buckeye Conference Championship.

Buckeye Conference

GOLF TEAM: Tom Reynolds, Coach; Mike Mosser, Mike Martin, Mark Mosser. **Row Two:** Greg Stacy, Greg Neumann, Kris McKelvey, Bob Montgomery, Ass't Coach; Kyle Robinson, Ric Miles, Doug Corbin, and Rick Bell.

This year's golf team again was Buckeye Conference Champs for the fourth year in a row.

However, the team had a little trouble at the beginning of the year with players. Just one week before the season began, Mike Martin and Greg Neumann were involved in an automobile accident. Mike was lost for the entire season, and he had just qualified number one with a four round total of 296 or an average of 74 per round. Greg had qualified number four and was to be lost for 5 weeks of the season.

With only one returning letterman, Rick Bell; qualified this year after much experience on the state tournament level.

There was an abundant number of juniors: Doug Corbin, Ric Miles, Mike Mosser, Mark Mosser, Kyle Robinson, a sophomore Greg Stacy, and a girl, Kris McKelvey. The team was very young. Record for the season stands at 5 losses and 8 victories.

With such a young team, next year should have a lot of experience with many returning lettermen.

Much concentration is given when putting on the green. Ric Miles wants to make sure he makes it while Mike Mosser looks on.

Trojan Wrestlers

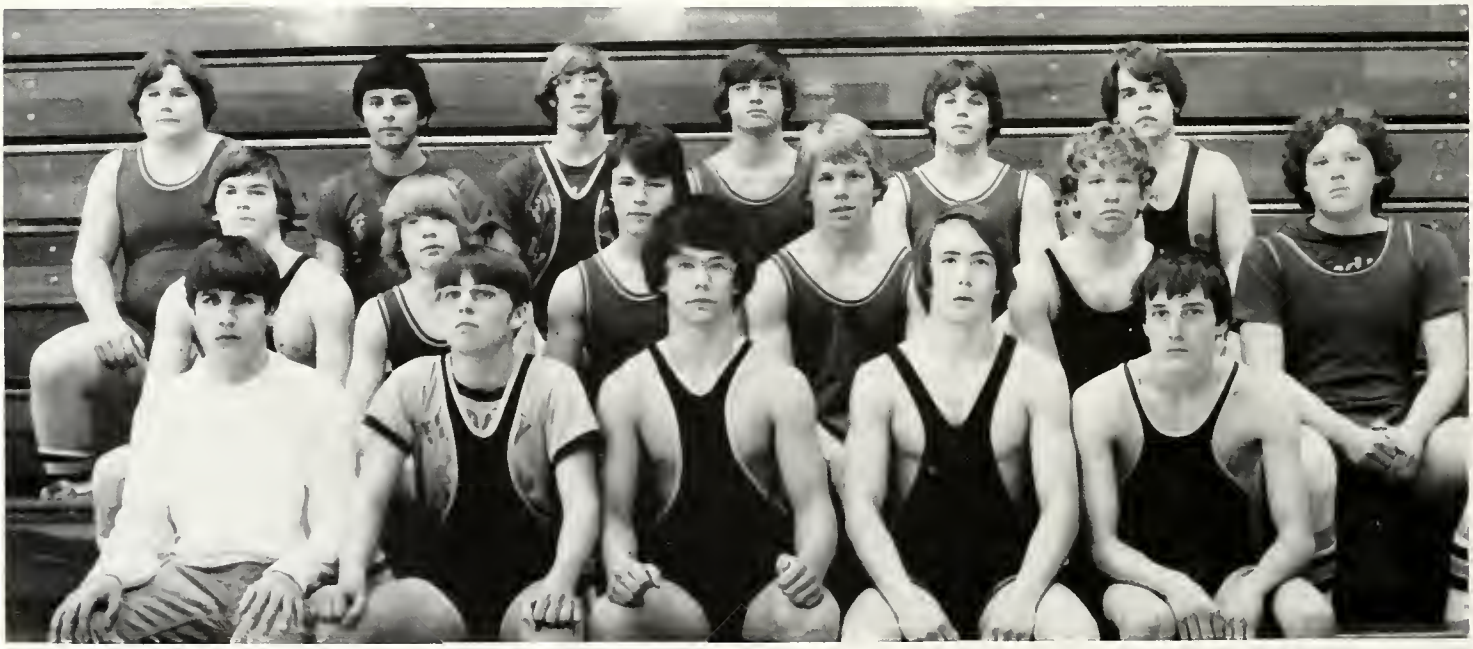
Greg Beatty waits his turn while Joe Blake watches a member of the wrestling team.

The J.V.'s concentrate on the player on the mat.

Hey!! Did you go to any of the wrestling matches? Well, if you didn't, you sure missed out on an exciting season this year. We had a winning team with 236 take downs, 141 escapes, 113 reversals, 126 near falls, 84 decisions, and 36 falls. These fine wrestlers were under the leadership of Mr. James Hoppel, and Mr. Scott Hreben.

Along with the regular season where the Trojans had a record of 5-4, our wrestlers went to Sectionals and placed 5th out of 13 teams, and Districts where they placed 12th out of 39 teams.

All in all, our wrestlers had an exciting season. So if you happened to miss the wrestlers this year, be sure not to miss them in their next season of 78-79. GOOD LUCK TROJANS.



J.V. WRESTLERS: **Row One:** Manager, Tom Ferris; Bill Greer, Greg Beatty, Joe Blake, John Kilpatrick. **Row Two:** Jay Clements, Dave Fetter, Brad Cline, Andy Manuel, Mark Webber, Scott Butler. **Row Three:** John Moore, A. J. Benavides, Mark Darnall, Dave Campbell, Dave Karcher, Rick Burke.

Chip Frey embraces Dave Bishop after a successful pin.

John Stozich Resigns as Head

"Old coaches never die!" "They've just got all their memories and scrapbooks," Stozich said. Sunday, March 12, Coach Stozich submitted his resignation as head basketball coach. John Stozich's record at Findlay was 193-99 with eight seasons of 16 or more wins. Coach Stozich will be missed as basketball coach, but his duties as assistant principal will keep him at FHS for a long time to come.

Rick Maroney, a sophomore, threw a record basket at the regionals in Columbus. It was 79 feet. The buzzer had sounded — SWISH — YEA!!!

ABOVE: Terry Schlencher looks for a teammate to pass the ball to or a break in the Elyria defensive player.

Shawn Wiseman takes a leaping bound to make two points.

Is this a rebound? Only Dave Rieker will know for sure.

Basketball Coach at End of Winning Season

(The 28-Year Chapter Ends With 357 Victories)

Two, four, six, eight, who do we appreciate? "Trojans!" The crowd responds. The varsity basketball team outdid themselves this year with a record. The team managed to travel all the way to regionals this year — their final defeat from Miami Trace. Rick Maroney and Terry Schlencher, two of the sophomores on the team proved themselves to be truly great basketball players. Both boys were in the "starting five," and managed to make up a substantial amount of the team's total points for the season. Dave Rieker, a six-foot-six junior was needless to say, the tallest member of the team. His position was that of center, which he played with obvious ease. Rick Bell, Kurt Jefferies, Kevin Gase, all seniors, were also members of the "starting lineup." Each of these young men gave their all in playing the games. The spirit of the crowds also aided them in their victories.

When the tournament started, the Trojans showed everyone what they were made of. First of all they defeated Lima Shawnee, then Napoleon. Next came Lexington and then Ashland — on to Columbus. The trojans met their match over the regional title and lost — but not without a fight. Rick Maroney made his final debut of the season. The clock was running down with only 3 seconds before the half. Screams were heard from the crowd — SHOOT — Rick did and believe it or not — SWISH — right through the hoop with his 79 foot basket making two points against Miami Trace but to no avail with the final score being 64-58. Going to Columbus proved to the many Findlay fans that they were great. Congratulations are due for our boys and a wish for good luck next season.

Dan Replogle charges down the court breathlessly in hopes of a score.

VARSITY BASKETBALL: Manager Pat Fitzenrider, Todd Longberry, Dan Replogle, Kevin Gase, Shawn Wiseman, Ricky Maroney, and Terry Schlencher, Dave Bowden, Steve Dean, Jon Pulcheon, Dave Rieker, Rick Bell, Kurt Jefferies, Dave Smith, and Manager John Wolf.

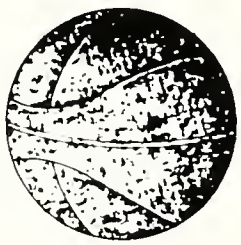
Elmer Wilch and Bob Masulovich, two FHS fans take a break at half-time.

Not enough can be said for JV Basketball coach, Jim Baron. Even when Coach Stozich stole two of his starting players — Terry Schlencher and Rick Maroney, Baron kept together a winning team which hustled to a very impressive 14-4 record.

Rick Acord led the scoring with a total of 233 points, followed closely by Jim Geyer with 201. Rick Maroney was good for 133 points (not counting the 125 he scored for varsity), while Bill Beach and Jeff Dean added 105 and 103. Bill Beach, Jim Geyer, and Rick Acord also led the team in rebounds with 172, 153, and 136 respectively.

A highlight of the season came when the Trojans handily beat Elyria 61-49 at home, after losing to them in Elyria by 22 points. Dean, Geyer, and Acord sparked the team that night combining for 49 of the total 61 points. Beach led with 12 rebounds and Geyer grabbed 11.

Well, the list of note-worthy statistics is long, but it is obvious that the hours of practice and hard work paid off well for these 15 sophomores and their coach.



Jim Geyer waits to receive the basketball.

Rick Acord tries to grab the basketball for Findlay as Jeff Dean looks on.

Bill Beach is set for the rebound as the Elyria player looks ready to grab it.

Spike It

I've got it!!

A bump — no, not the dance. A set — not as in tennis and a spike — not what you do to punch at a party. These all refer to a great sport — volleyball! This year's teams, with their enthusiasm, participated in the Buckeye Conference and nabbed second place. Senior, Sara Ringle was voted the MVP in the BC. From there the teams moved to Districts losing to Celina which ended their season. Coach Nancy Williamson and Bev Fisher helped with the final season record of Varsity 12-5 and JV netting a 7-4 record.

Lee Ann Morgan bumps the ball back over the net to her opponent.

JV TEAM: Laurie Gerber, Deb Hamker, Brenda Bosse, Bev McCullough. **Row Two:** Terry Hemker, Beth Beisner, Dianne Edelbrock, Sally Swisher, Susanne Duncan, Sarah Wortman.

The strong JV girls' basketball team had a near-perfect season, supporting an excellent 9-1 record. This was the first year that the JV's had their own coach. Ms. Kathy Johnston filled the position and coached the girls to their winning season. At the close of the season, Jayne Brim was voted MVP; Deb Hemker — Best Defense; Susanne Duncan — 110%; Dianne Edelbrock — Most Improved and Bev McCullough — Sportsmanship.

Track season could not begin due to the amount of snow left on the track, so Coach Didich, Joe Nicholson, Dave Hulbert, Jay Clements, Greg Schwepe, and Scott Dufford helped to shovel the all weather track.

Pole Vaulter Scott Stevens boosts himself over the bar. Did he make it? Only he knows for sure.

How would you like to run when it's 23 degrees outside, or when it's raining, cold, snowing or windy? The track team does not seem to mind. Even with the weather against them the team had an 8-3 record. One of the wins was against Fremont Ross; a team which the runners had never beaten before.

With Sara Ringle at discus and long jump; Tina Crowder heaving the shot put, and Loni Reusch in the high jump area, the girls usually held the upper hand in the field events. Ringle, the first track girl to participate in the state meet, placed fourth with a jump of 17'2¼". This was a new school record as was her throw of 109'3" in the discus. Reusch beat her record high jump with a jump of 5'3". The previous record was 5'2".

The running events were led by the 880 yd. relay and the 440 yd. relay. Both relays set new school records. The 880 yd. relay was composed of Deb Hemker, Sara Ringle, Loni Reusch, and Lil Kurpanik. While Hemker, Tina Tate, Jayne Brim, and Kurpanik made up the 440 relay, Ann Baron and Ann Beams carried the team in the 880 yd. run and mile, respectively. Several of the runners made it to districts.

As co-captain, Jody Hutson put it, "the girls track team worked hard and together to get the results that they did."

Whistles blowing, people cheering, coaches shouting, players kicking the ball down the field; the great environment around a soccer game. If you missed the action on the field, the Findlay Trojan Soccer teams had an exciting season.

According to reports from other coaches, Findlay was the best passing team around. So, all in all the FHS soccer teams had a terrific season.

Soccer is such a vigorous sport and Coach Laux finds the students willing to work very hard. This is evident with the Trojans because of the type season they finished with.

SOCCER TEAM: **Front Row:** Mark Davies, Mark Cervenka, Co-Captain; Eric Thomas, Dave Smith, Joe Omelchuck, Manager; Greg Lodge, Stewart Hengsteler, Mark Schaffner, Joe Roberts, Jeff Patterson, Brad Williams. **Back Row:** Coach Albert Laux, Steve Kindle, Co-Captain; Steve Annesser, Paul Larick, Steve Davies, Mark Beery, Jeff Hardin, Rick Shick, Keith South, and Tim Grant. **Not Pictured:** Chip Autieri, Shelly Scott, Trainer.

A Breathless Sport

Eric Thomas successfully dribbled the ball away from his opponent while the score was tied 2-2.

Ummmph! That was one of those bounce shots off the head.

A point is scored when that white spotted ball flies into this net, but hopefully our Findlay goal guard will keep it out for the other team.

Number One — State Champs!

With less than two minutes remaining in the game of the state championship, the score was deadlocked at 7-7. A nervous apprehension inflicted the worn skaters as the seconds ticked away. Both the Findlay and BG icers knew that the next goal would bring victory or defeat. Skating with a main advantage, the Trojans surged to a final dramatic effort. A slap shot from the blue line sent the puck across the ice and right on target. Wild jubilation filled the arena as the Findlay Trojans captured their second state championship title in three years.

Though the victory was like a dream come true, it was well prepared for by hard work and determination throughout the season. With a final season record of 21-5, the Trojan powerhouse provided excitement from the start. This was also the first year for Findlay to get a taste of international competition when they played the Canadian team of Uxbridge, Ontario.

Intense physical conditioning and practice paved the way for the outstanding season. Ted Sator, a former BGSU and World University Games hockey player, took over the coaching position this year. He drove for both more skating and increased puck action. The strategy paid off as the team accumulated an additional 100 goals and assists over last year's team. Congratulations on a fine season!

Craig Davis goes after the loose puck.

"Hey, where did the puck go?" exclaims Jim Slaughter.

Mark Christman and Mark Davies return to the box for a little rest before venturing out on the ice.

Practice makes perfect! That is the theme of the girls' gymnastic team this year. Each of the members of the team come up with some type of routine for each piece of equipment. The routine which outshines the rest is the one used in team competition. Because of the bad weather this winter, four of the six scheduled meets were held in one week. The girls showed great strength and endurance during that week and kept the pep and enthusiasm flowing. Though a large part of the team was sophomores, Mrs. Wittenmeyer, the coach, felt she had a strong team. If things go well and these girls stick with gymnastics, the team should become much better next year.

Lefties Dominate Team

It's one, two, three strikes you're out at the old ballgame. Speaking of baseball, this year's "swingers" combined a lot of hard work and effort to put together a terrific team. Along with the players' efforts, Coach Curlis (alias Woody) was there to wrap it all together to end the season with a 16-2 record. Congratulations to all of our "super swingers of 1978."

WOODY'S WARRIORS: **Row One:** Deb Wymer, Kathy Treadway, Chris Predmore, Gay Woods, Deb Goralske, Cheryl Smith. **Row Two:** Lisa Wittenmyer, Diane Edelbrock, Angi Miles, Jackie Radabaugh, Lisa Robinson, Kari Kaufman. **Row Three:** Cindy Gierke, Laurie Bryan, Rhonda Baldridge, Amy Lawson, Sonja Harrold, Jill Rooney. **Row Four:** Miss Siebenaler, Adviser; Laurie Rimer, Judy Snyder, Ann Beams.

Woody Curlis was a coach of baseball for 15 years.. He started his coaching duties at FHS in 1968-69. Among the 174 victories against 50 defeats is a 43-9 record in post-season play. His best season record wise was 1976 when the Trojans ran off 29 consecutive wins before bowing out of state tournament with their lone setback of the year.

His best season was 1971 when a 19-7 record was good enough to carry the Trojans to the top of the Ohio prep baseball world.

Swimming is one of the most physical and mental sports around. It takes a lot of training for a swimmer. This year's high school team started in late August and ended in middle March. It is one of the longest seasons in the school. The work pays off at the meets. The meets, if you can get involved, are the most exciting. A meet could be won or lost on just a few tenths of a second. This year's team is the best according to Coach Snow.

Coach Snow said that they met their goals this year which were: win the Buckeye Conference, go undefeated, and as an added bonus — were in the top 12 in the state. GOOD SEASON GUYS.

Tennis Team Earns Second Place in Buckeye Conference

The boys' tennis team, coached by Mr. Jim Hayes, was a "smashing hit!" Their outstanding performances were numerous. Although they took second place in the Buckeye Conference, they had three individual winners. Jeff Oleksinski captured the first place singles award, and Phil Goetz and Steve Davies paired up to take the first place doubles award. Brad Stahl and Jeff Oleksinski also combined later in the season to be the Doubles Champs at Sectionals. Other faces who helped the team end with their 7-5 record were Frank Zavodsky, voted the most valuable player; Brian Goetz, and Mark Davies.

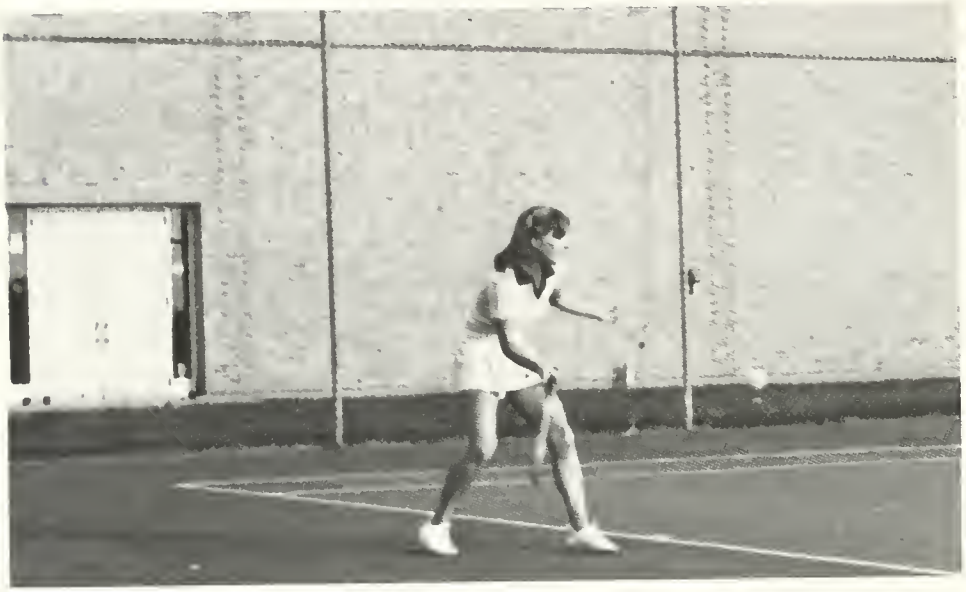
B.C. Champions

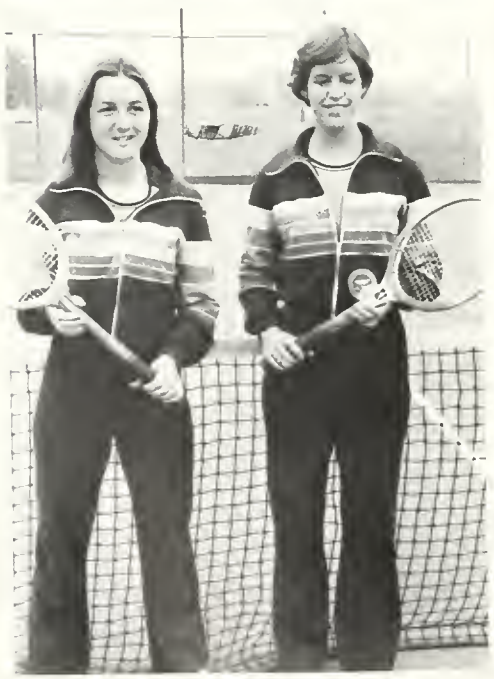
This year's tennis team proved to be one of the finest as they captured the Buckeye Conference Championship and sent a doubles team to the state tournament. The team finished the season with an almost perfect 8-1 record, gaining each win by identical 5-0 scores. Coached by Marshall Donaldson, the team's most valuable asset was its depth which provided for their successful season.

Findlay was well represented in all division finals at Buckeye Conference, gaining three individual championships in 3rd singles and 1st and 2nd doubles. Findlay captured both top spots in their doubles sectional and was runnerup in their district before advancing to the state tournament.

Lyell Bellamy brings her racket into position to hit the oncoming ball back over the net to her partner.



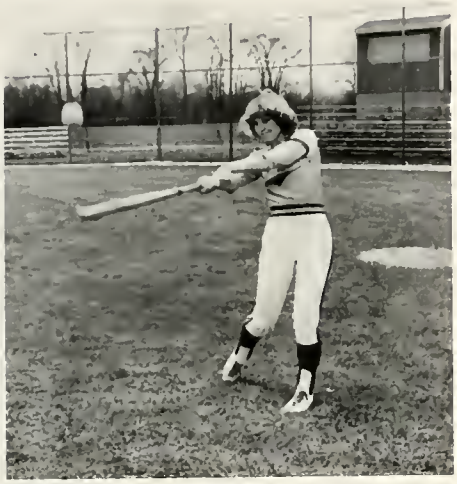
This patch "United States Tennis Association" is sewed on the warm-up suit of Beth Kruse. It must give her luck.



Jayne Brim won the No. 3 singles title in the BC meet and Beth Kruse was runnerup at No. 2 singles. The Blue and Gold netters have a combined singles-doubles record of 26 wins against four losses — 7-1 together in doubles play.

GIRLS' TENNIS TEAM: Amy Hostler, Margaret Bellamy, Cindy Rooney, Jayne Brim, Amy Rooney, Ann Fawley. **Row Two:** Lyell Bellamy, Gwyne Evans, Erica Hennings, LeAnn Baker, Beth Kruse, and Coach Marshall Donaldson.

Kris McKelvey takes a practice swing before the game begins.



LaDonna Smith just caught a practice fly ball thrown by another team mate.

FHS Sluggers

Softball — What is it really? A pitcher, catcher, infielders, outfielders, strikes, double or triple plays. Yes, and a whole lot more, and Findley High School has it. A team with excited players that had a great season with a 12-3 record and 4 rainouts. All season was coached by Ted Sator. This year the Trojans had a strong defense with some good solid hitting. So the next time you're at the field and see one of our girls smack it over the fence, don't be surprised to see another great victory.

GIRLS' SOFTBALL TEAM: **Row One:** Bev McCullough, Deb Cook, Sarah Wortman, Barb McDowell, Robin Cramer, Brenda Bosse, Darlene Warner. **Row Two:** Nancy Shafer, Manager; Karen Hemker, Kris McKelvey, Patti Regan, LaDonna Smith, Suzanne Duncan, Muffin Sheaffer, Michelle Sonnett, Sherry Shingler, Coach Ted Sator.

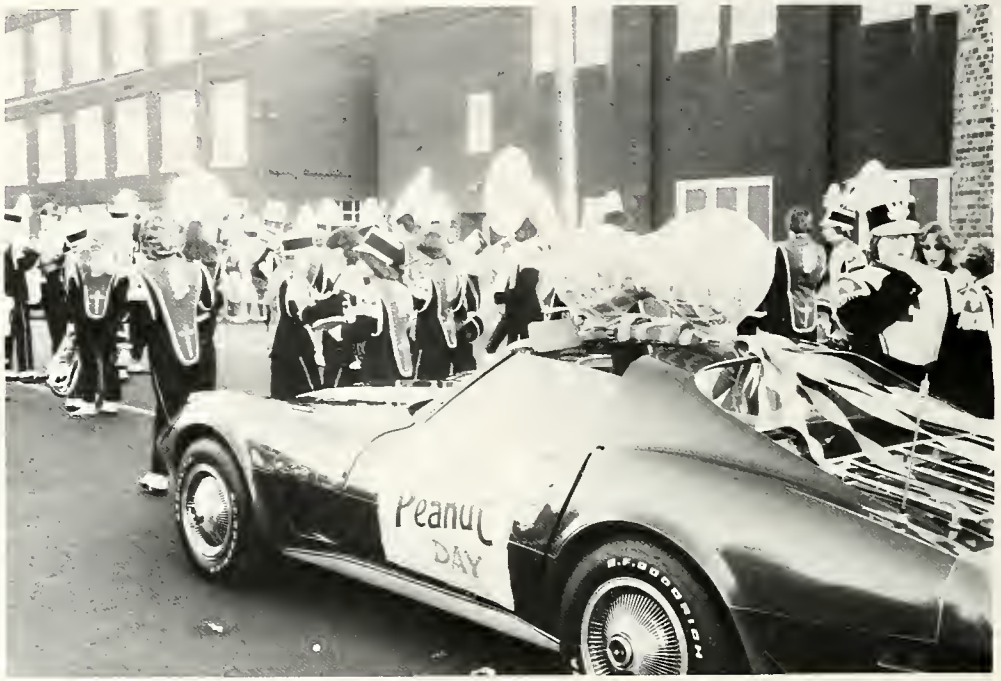
Many Projects on Council's Table

A controversy over a smoking area at FHS will probably be what the 77-78 Student Council is best remembered for. When a random polling of study hall students favored a smoking area, the school board suggested a school-wide survey. The results of that survey indicated that sixty-four percent of the student body were in favor of an on-grounds smoking area, mainly to get smoking out of the restrooms, although sixty-four percent of the students indicated they were non-smokers. When given both this information and council's proposition of an experimental smoking area near the simulator, the school board questioned anyone's right to smoke in the building, (teachers included), for any occasion.

Council wasn't involved in just the smoking issue, however. Throughout the year, the council was very busy. Successful council activities ranged from football concessions and homecoming to Christmas poinsettias and the Christmas assembly. A reflective crystal ball was purchased for dances and a new popcorn machine replaced one of the old-timers from the stadium. Findlay even joined the National Association of Student Councils.

President Chris Kern and adviser Miss Heskett set up organizational meetings which were held during the summer. The five standing committees were filled so work could be started immediately. Kern appointed the chairman, and Vice-President Scott Paul made sure the committees were equally strong. Then the rest of the officers were elected by council: Treasurer, Ann Martin; Recording Secretary, Lyell Bellamy; Corresponding Secretary, Kelly Andrus; Parliamentarian, Mark Cervenka; and Sergeant-at-Arms, Scott Dufford.

Student Council organized the annual Homecoming parade.
Margaret Bellamy, Lyell Bellamy, and Leann Morgan met at the Ad. building to discuss the possibilities of a smoking area.



STUDENT COUNCIL MEMBERS: President, Chris Kern; Vice-Pres., Scott Paul; Secretary, Lyell Bellamy; Correspondence Sec., Kelley Andrus; Treasurer, Ann Martin; Historian, Margaret Bellamy; Sergeant at Arms, Scott Dufford; Parliamentarian, Mark Cervenka. Busy Year

All year long the various committees were kept busy. The Community Relations Committee, under Rich Corning, delivered Christmas poinsettias to shutins. Council purchased about 400 of the potted plants and an entire Saturday was spent in delivering them to people whose churches informed FHS that they deserved them. The Finance Committee cleaned up on football concessions; committee chairman, Sara Miller had to spend the rest of the year thinking of fund raisers to keep busy. The Entertainment Committee was kept busy planning Homecoming and the Winter Formal. Jeff Gephart's committee was also in charge of assemblies, including the Gong Show, which would have been a success if it hadn't been for a couple of people with eggs. The Student Relations Committee, under Mark Cervenka, was a good liaison between the administration and council. They were also in charge of the smoking area polls and did a fine job. Also, a fine Christmas Assembly was presented which consisted this year of a special version of "Twas the Night Before Christmas," in which a faculty band and a faculty choir were featured, plus the FHS Symphony Orchestra and the Jr.-Sr. Choir.

Steve Campbell was chairman of the Review of Student Council Procedures Committee (RSCPC) whose main purpose is to impeach non-active Council members. Steve's committee was a bit active during the year, too, unfortunately.

Students were more interested in what their council was doing this year, therefore Council kept more active. Meetings were held often, whenever and wherever necessary, such as Miss Heskett's home and just before a school board meeting. Each member bought a student council T-Shirt to help identify themselves on occasion to the student body to get feedback from the students. In the past, neither the student body nor the student council, for the most part, seemed to care enough about communication. "This year the school changed a lot and Council was a good example of it," President Kern said.

After a long spell of laziness and inactivity, our NHS chapter was turned around this year by a concerned membership. In the past, NHS at Findlay was a group of students that did nothing; the '77-'78 members decided to do something with their organization. The elected officers and Mrs. Beck, the new adviser, met during the summer to brainstorm. Many good ideas were discussed and many reached the planning stage and action.

One of the most important changes made was the method of selection to the chapter. Mrs. Beck came up with a system that dropped the practice of applying for the honor of membership and that looked at every academically qualified person's background and character. A fall induction was then held to add those who were worthy but were neglected by the previous year's members.

Another change was the use of committees to take care of the chapter's business. President Scott Harshman created four standing committees for the year, and a fifth was added by the chapter early in the year. The Constitution Committee, headed by Harshman and Sara Ringle, was a one-year-only committee, to establish a constitution for NHS to operate under. The new constitution, structured to meet FHS NHS needs, was completed in February, ending the work of this committee. A Public Service Committee was created to fulfill the National Honor Society's pledge to serve. Vice President Mark Elderbrock, and Lee Ann Morgan chaired this group, which came up with a paper recycling project for FHS and an idea to set up nursing home entertainment activities, among other ideas. Secretary John Gordon chaired the Organized Events Committee with Scott Davies. NHS parties were their major task, but their main project was the spring banquet honoring departing seniors and welcoming new junior members. The Fund Raising Committee, under Treasurer Beth Kruse and Janet Schober, held bake sales and began what will hopefully be a long-term sales project with M & M's. With dues added in, and bills subtracted, the chapter managed to close out in the black — barely.

Orchestra Under New Leadership

Aided by a nine-period study day, which allows daily practice sessions, the 70 members of the FHS Symphony Orchestra put a fine edge on their musical talents. Under the capable direction of the professional faculty — specialists in Brass, Woodwind, and String instruments — they add to a repertoire which spans the baroque, classical, romantic and modern period.

The symphony orchestra is part of an extensive music education system beginning as early as fourth grade. The music faculty organizes elementary orchestras in fourteen primary schools throughout the community with an enthusiasm that motivates the budding musicians.

Three Junior High Schools sponsor and encourage symphony orchestras, further preparing the young musicians for more advanced instruction.

Hard work pays off and the result is the award winning Findlay High School Symphony which year after year is recognized as one of Ohio's finest. Appearing often at leading colleges and universities throughout the state, and also regularly performs at special events and festivals.

"Music as a form of communication, is a means for young people to relate with themselves, their peers and their environments. Music disciplines the mind and stimulates it to greater achievement."

Lori Stelzer concentrates deeply so that she does not miss a note.

Beth Pahl and Martine Kline enjoy practicing their violins together.

David Hanson listens to each and every note during the daily rehearsals.

Tim Eller and Curt Franks practice their French Horns during Orchestra Rehearsal.

Spirit Clubbers Keep Up the Spirit

When walking through the halls you can't help but notice the bright colorful decorations covering numerous lockers. These are produced by the ingenious and creative members of Spirit Club. Made up of girls, this group decorates our sporting jocks lockers. Without their spirit and hard work, there would otherwise be just another dull line of lifeless tan lockers.

Pepper Club Promoted a Lot of Spirit

Who's got spirit? Who cheers at all the basketball games with endless enthusiasm? The Pepper Club! These girls gave their time to come in their blue and gold jumpers to cheer on our team and add confidence to the players and the fans. They also help the cheerleaders by increased "yell power." So if you see someone in a blue and gold jumper and white gloves, she's not just another girl — she is special — she is a Pepper Clubber. The Pepper Club was under new direction this year. Mrs. Nancy Brobst organized the group and promoted much enthusiasm. Her famous last words were: "Be sure you wear earplugs."

The most exciting times for the girls were when the basketball team went into tournament action. Buses were taken to each game in order to show more spirit for the team. The girls yelled their lungs out, and it paid off; the Trojans went to five tournament games and even became district champs.

Careers For Tomorrow

Cooperative Office Education is a course designed for people who want to go to school for half a day and work at a career for the other part. Some of the activities this year were participating in the OOEA Regional Contest where Mary Jo Kiser ran for president and placed 3rd.

Some girls were selected to participate in the OEA typing and related contest. Jamilee Shaheen placed third and was qualified to go to nationals.

The money making project this year was selling Smiling Scot products. This was used for the Employer-Employee Banquet on May 24.

DECA Broadens Knowledge

Students involved in the Distributive Education class prepare themselves for jobs in the outside world. Instead of going to school for the full six hours, the seniors attend their regular classes for a half-day then report to their jobs at some business establishment in the community.

Juniors begin their DE role by learning business trades and practices. When these juniors reach senior level, they too will make use of their knowledge in a specific skill.

Many jobs the students held were cashiers, carry-out boys, waitresses, sales clerks and factory workers.

All businesses that sponsor the Findlay DE program are given a plaque to display in their place of business.

DE gives any student excellent experience and a chance for them to earn money for an opportunity at further education.

The Entire Staff of the

"Hey, who took that picture?" "Is this a mosaic layout?" "There aren't any trapped captions are there?" You might have heard these items come out of a room while you sat and waited to talk about detention with your principal, and wondered, "What are they talking about?" Well, these are just a few of the many activities of the Trojan Yearbook staff. This year it was at its new location down in the SAC office for everyone's convenience.

With the help of our new adviser — Jerrene Ackerman and Business Adviser, Jim Hayes, the staff has been working busily doing the many things involved in turning out a good yearbook.

Staffers include photographers, division editors and others all of whom went out to sell ads to the downtown businessmen of Findlay. The staff also toured the yearbooks professional photographers studio and attended a workshop at BGSU. There were many deadlines which takes a lot of hard work to meet. All of these situations involve meeting and satisfying the customers. Who are our customers — YOU ARE!

The Trojan has moved. A new look, new faces, and a new office. The new student activities center now houses the Trojan Yearbook Office.

Forensic

The 1977-78 Forensic season opened in September with a total of 33 members. To have sophomores meet upperclassmen, a Progressive Dinner was held. Appetizers began at President, Allison Powell's home; salad was served at Vice President, Sara Ringle's home; the main course was at Advisor, Janelle Busdeker's home and dessert was served at Diana Coronado's home.

From late September until early November, members of the speech team worked at cutting plays, writing original speeches and filing U.S. News and World Report, Time and Newsweek to be prepared to attend the opening tournament in mid-November. However, due to various cancellations of tournaments, the team was not able to put their research cutting and writing into competition until early December.

On December 19, a second social event was held — a Christmas Mystery Dinner and tree decorating contest in the Busdeker home.

Competition then continued from December through March. The team attended tournaments at Maumee, Middletown, Sylvania, Toledo Whitmer, Sinclair College in Dayton and Princeton, Cincinnati, as well as its own Third Annual Findlay-hosted Forensic tournament on February 4. The total number of tournaments for the year was much lower than normal due to the weather. Frequently, however, in support of these tournaments, the team members wore spirit pins — a new activity this year.

Among the honors received by team members throughout the year were Sara Ringle, Bridget Benford, Nancy Ford, Anne Nikles, Beth Benschneider, Diana coronado, Cheryl Baumann, Allison Powell, Erma McGinley, and Megan Rooney.

To end the Forensic season, on May 12, a banquet was held at Kauffman's restaurant in Bowling Green. At that time, "Busy Buzzy" awards were presented and a magic show highlighted the entertainment. State contest participants were specially recognized.

The team supported itself by selling Rice Krispie squares once every two weeks in the cafeteria, stocking the vending machines in the cafeteria and by selling prom couples pictures.

Teams Win the Right to State

FHS DEBATE TEAM: John Sherman, Denise Fisher, Todd Hengsteler, and Anne Fitzgerald.

The national debate topic this year was the need for a national medical care system. The debate team encountered such subjects as X-rays, doctor strikes, and the poor quality of medical care our citizens are receiving.

The team visited many schools, but found the stiffest competition in the Sylvania, Maumee, and Newark school districts. The team also brought home two 1st place and two 2nd place trophies. After such a successful season, they won the right to state competition, but had to turn down the opportunity due to complications. On this year's team were sophomores Anne Fitzgerald, Todd Hensteler, Carolyn Kerr, and juniors Denise Fisher, and John Sherman, all under the coaching advice of Mr. Dan Matheny.

Coach Matheny gives out the rules for the subject matter for the debate.

The Beat Goes On

Left-Right-Left-Right, thinks Ann Schubert, as she keeps in step while marching down the street.

Oh! Oh! I forgot my next step, thinks Jan Rahe.

I didn't make the mistake that time, gasps Celia Cronenwett.

This past year was a year of innovations for the FHS Bands. In the fall, the marching band participated in the first Findlay Marching Band Festival, sponsored by the Music Boosters, as well as marching for all the home games and three of the away football games. The Stage Band, a group of 24 who sacrifice half of their lunch period to rehearse, had the opportunity to perform much more often this year. Their appearances included dinner and dance jobs at the Country Club and the Elks Club.

Taking over the stage band's old obligation at the basketball games was a new group with a flexible membership — The Trojan Brass. The brass played such favorites as "Rock Around the Clock", "Basin Street Blues", and, of course, "Sweet Georgia Brown." They also put in appearances at several soccer games at Donnell Stadium and a hockey game at HRC.

Mr. Richard Kondik directed the bands with the help of Mr. James Mitchell and Mr. George Amends, who filled in for "Mr. K." when the Trojan brass performances conflicted with those of the Stage Band. Mr. Mitchel also conducted the Golden Trojan Band, one of the two concert bands. A new experience for the concert band members was their participation in the OMEA District III full band contest in March, under the direction of Mr. Kondik.

The band officers put in many long hours of work for the band beginning in the summer. Band president, Kathy Barkey; Vice President, Linda Daugherty; Social Chairman, Linda Keiser; and Secretary-Treasurer, Melonie Ice all did a great job, as did everyone connected with the bands, from individual soloists and special sectional instructors to lighting crews for concerts. In keeping with the Findlay tradition, our bands and the people behind them were outstanding.

Mark Elderbrock, pianist.

Under the direction of Mr. Don Jefferies, the FHS choir performed at an all time high. The chamber choir performed for different groups around town, at luncheons, and for different elementary schools.

The senior choir members were able to present their talent one more time at the end of the year during the graduation ceremonies. Also, what would the operetta be without the strong choral lines and soloists. Students really enjoy singing and it shows: PRACTICE DOES PAY OFF.

This year, for the first time, the B&G staffers were asked to build a float for the Homecoming parade. The staff also sponsored a Homecoming breakfast in which doughnuts, coffee and milk were served on the morning of Homecoming to FHS students.

Two field trips were also taken this year. The first was to BGSU for a Journalism workshop. The second was a trip with the T.V. Broadcasting class to WTOL-TV 11 and the Blade in Toledo.

The Findlay High School Blue & Gold Staff

The B&G — Student Expression at FHS

Michelle Ross, Julie Nulton and Lisa Conrad enjoy reading the Blue & Gold.

The Blue & Gold is the printed form of student expression at FHS. Produced bi-monthly, the paper, its staff of 27, editor Jeff Flinn, and adviser Mrs. Delma Beck work to gain an education in Journalistic writing and the behind-the-scenes activities of a paper. Weekly the staffers work together checking various areas of the school to catch any activity that might interest the student body. Once the beats have been checked and ideas found, story assignments are made and staffers begin working on writing. The stories, which usually have a Thursday deadline are then given to the typists who type copy up in a 3-inch column.

Layout takes place on Monday. The page editors then set about cutting out copy and waxing the copy down on layout paper. This process usually takes all nine periods of the day. The paper is then sent to Martco Printing in Columbus, Ohio to be printed. The Blue & Gold is sent back to FHS, arriving by Thursday, and counted for sales and subscriptions.

Lori Anderson shows you where you can put your suggestions for the Blue & Gold.

Did you know there are over 17,000 books and more than 140 different subscriptions of magazines in the library? Ever wonder where one could find the Guidance Research for college materials? The answer is in the Media Center or more well-known as the Library. The Media Center includes the Audio Visual equipment like films and slides, information about colleges plus the books, magazines and paperbacks.

This year the Media Center had several changes in its modus operandi. First off, no longer were students sent overdue notices. This was because homerooms were changed, therefore the ID cards were incorrect. Further, there was no delay of your report card if you had an overdue book, but diplomas were still held for seniors. If anyone noticed, there were a lot more magazines specialized in certain areas in the library. The people who donated these subscriptions to the school deserve a special thanks. Naturally, the library obtained new books mostly in the reference and paperback area.

The two main librarians are Mrs. Hardesty (Head Librarian) and Mrs. Purdy (Resource Librarian). These two ladies, do an excellent job. The clerks are Mrs. Moore (full-time) and Mrs. Hill (part-time). I do not know what kind of Media Center we would have without the help of these four!

To many, the word cheerleader means those that cheer at basketball and football games. But there are many other responsibilities that the girls must fulfill. Among these are: helping score at cross country meets, being present at many of the other sports, bonfires and money raising projects, baking goodies, decorating lockers, and promoting school spirit.

Although there is work involved, you also get a great number of privileges. Being a cheerleader is the dream and envy of almost every girl. It places you in front of the crowd and gives you the best seat in the house. You get almost the same privileges as the team itself . . . riding a chartered bus, going out to eat, and sharing in the victories. Fact or no fact, people do notice you more because of the uniform you wear. This in some ways is one of the privileges also. Cheerleading is becoming a sport within itself. It's more of a challenge to become good at. But the biggest challenge is to spread the school spirit inside of you to the whole student body!

Barb Gebhardt — Speech Teacher of the Year

Who are those crazy people you see sometimes reciting Shakespeare or just look like they might be talking to themselves. These people probably are in Drama Club. If they're really far out and wacky they probably could be a member of the International Thespians. Now, just what is a Thespian? Well, in order to belong to this privileged group, you must earn at least 10 points in the drama department. To accomplish this feat, it takes a little hard work and effort by involving yourself in the FHS drama productions. Whether backstage, working on lights, or even out on the stage, these people deserve a reward for working so hard. That reward is being a Thespian.

The Drama Clubbers held their annual banquet at the Pioneer Mill Restaurant. Besides the delicious buffet table and beautiful atmosphere, the annual Wilbur Awards were presented. What is a Wilbur? A Wilbur is an award presented to all graduating seniors which contain special sayings of things that have happened to that person over the past three years while in special productions. Like — "The Incrediable Hunk." That happens to be Steve Chando — or — "I wanted it that way." This was Sandy Sweet's favorite line when something wasn't going exactly right.

However, the Drama Clubbers have many good times with fellow students and their advisers, Mrs. Barbara Gebhardt, Mrs. Janelle Busdeker, and Mrs. Judi Griffin.

Medical Careers Becomes Diversified

MEDICAL CAREERS CLUB: Lori Mick, Lori Arras, Ann Beams, Lori Walsh, Lindsay Geyer demonstrate their future professions on the FHS nurse, Mrs. Reamsnyder.

The Medical careers club went on a field trip to the Medical College of Ohio in Toledo.

This year Medical Careers Club has been active in various types of programs. They have had several speakers come and discuss many different types of medical occupations. They have also gone on several field trips. Some of the places they visited were the Medical College of Ohio in Toledo, and the Findlay Animal Clinic. These trips showed the members the various ways of caring for the sick and what is really involved in a medical career. At Christmas, the group members bought and took toys to children in needy families. All in all, it was an excellent learning experience for everyone involved.

The officers of the club are Ann Beams, Treasurer; Lindsay Geyer, President; Lori Walsh, Vice President.

Trojan TV

These FHS students are bringing high school sports to your own home through television. However, they do not stop with the televising of school related activities, but also sell their own advertisements. Such sales add realism to the program because if the sponsors are not pleased, they may not pay their bills. TV productions take a lot of planning, time, and skill. It's not as easy as it looks; but thanks to the expert hands of these students, the video-tape machines are lined up correctly.

One other added feature to this is that all people (whether working in the concession stand, selling tickets, or whatever) can enjoy the game right along with the fans. Each station has its own television set to watch each exciting moment of the sport.

Bill Schifferly captures every moment in his taping of a game for Trojan TV.

First Annual Fine Arts Week

Fourteen Inches. Pretty good!! The clay pot was created in the competition of the potter's olympics.

The first annual Fine Arts Week proved to be a success. Activities were provided for the students such as a band concert, art displays to look at, and orchestra and choir concerts to enjoy.

Although the rain kept the potter's olympics from the courtyard; the competition was held indoors.

Many items displayed in the main hall won different place ribbons, and much admiration.

We hope that there will be a Fine Arts Week held at FHS next year.

Students enjoy the sunny weather during one of the fine arts week festivities.

Artistic Abilities

Have you ever seen some strange people walking around the halls with what must be the biggest folder on the earth. What do they carry in there — they must be straight "A" students with an enlarged grade card so when they take it out no one can miss getting a glimpse of it. NO, these are just regular ordinary art students. Not all students enrolled in art courses have a portfolio. We have two different art courses to choose from: regular art which included drawing and painting in water-color, acrylics and oil. On the other hand, you may choose Design which begins with working with basic shapes and forms then extends itself into weaving macrame and making jewelry. Whether it's Art or Design or both, the choice is yours.

Busy and hard at work is the word. These business students are involved in their daily work in the Intensive Office Education block.

Workable Careers

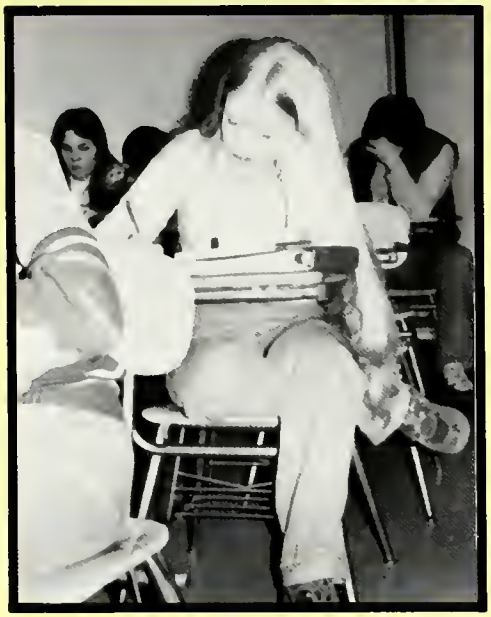
Yes, business courses are workable careers. You receive enough training in this department to get a good paying job with many skills to offer.

In shorthand I students learn to read and write shorthand fluently and take dictation at speeds up to 80 words a minute and up to 100 in the advanced course. If you are interested in retailing, Distributive Education I and II can offer fundamentals of retail, wholesale and service selling businesses. The Junior I.O.E. program can offer secretarial experience to those students interested in the C.O.E. program. Once a senior, on the job training is the key to a successful career.

A,S,D,F,J,K,L,;, — Keep those fingers curved on the home row keys! Don't watch your fingers! Do these expressions sound familiar?

English — What Would We Do Without It

Jill Hutson concentrates on writing complete sentences in her English course.



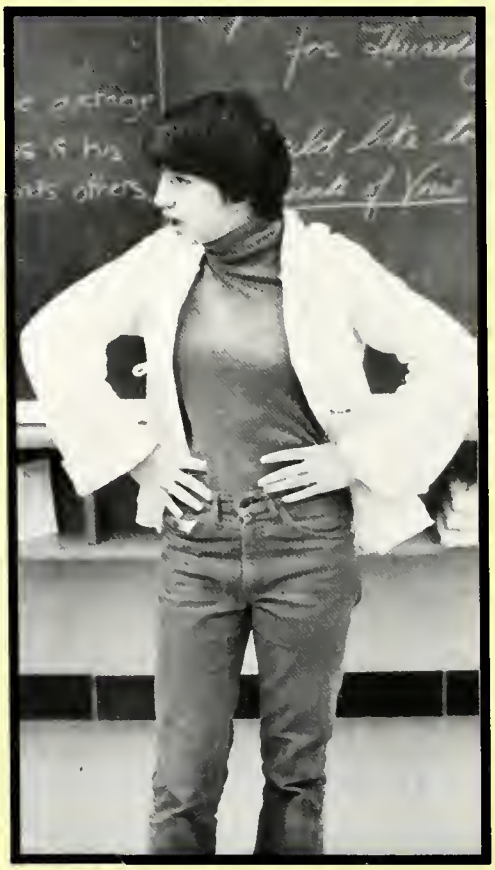
Mrs. Busdeker watches Pam Boden roll the dice for the game simulation in Oral Communications.

English, English — When will we ever get through with the endless clutter that is racked into our brains every year? Verbs, adverbs, adjectives and nouns aren't too strenuous to learn, but, what about the fabulous clauses such as subordinate or objects of the preposition? Don't forget to add those luscious morsels of infinitives, gerunds and participles. Just saying the words is enough to scare anybody away. Then jumping at us are all the literature courses.

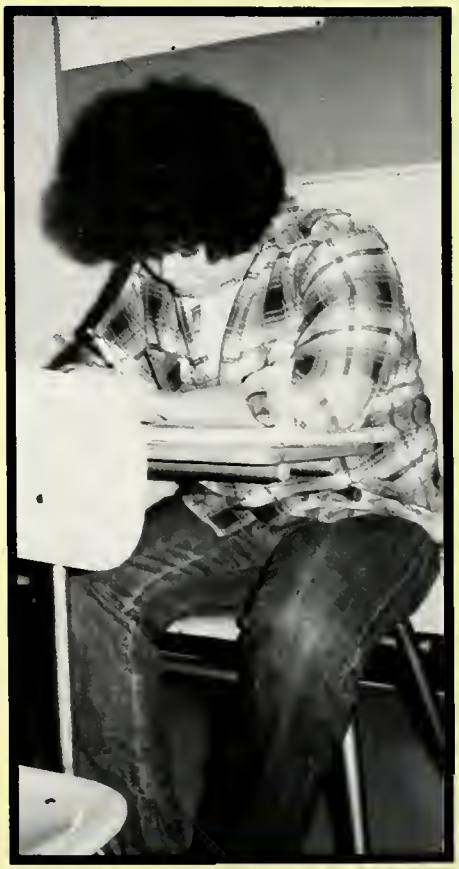
What are students to expect when they find they are enrolled in some course with a name like — "The Fundamentals of College Preparatory English?"

Well, sophomores and juniors must suffer through these courses as they are required. But don't worry, twelfth grade is coming, and with a choice: To take the plunge for another year — or to breathe a welcome sigh of relief!

Really — What would we be without it. Even though students regard English as their worst subject, everyone needs the basics to survive. Where is a better place to learn this skill than your high school years.



"Not another library assignment," remarks Nancy Ford.



Robert Hernandez, are you drawing pictures again in Mrs. Loertscher's class?

Matrix quadratic, tangent, monomial . . . If these words sound foreign to you, then you are probably not a part of the mathematics department. With the age of computers and pocket calculators upon us, we are quite lucky to have nine fine math teachers to help students learn that math is more than just pushing a button and watching the numbers light up. Many students are included in at least one of the wide variety of courses offered from Business Math to Analytical Geometry. A new addition to the department this year was a computer terminal available for student use. This large scale calculator served not only as an instructional tool, but also as a device to boost math students' morale. Students were able to perform complex problems and compile statistics, as well as to play computer games involving such topics as moon landings and food production. The computer has proven to be a valuable asset to the department. Who knows . . . maybe next year an XR 220 mechanical contraption will replace your teacher!

World Affairs Students Visit D.C.

A view of our nation's capitol.

The American History course, required of all juniors, is designed to teach a basic understanding of our democratic government. It emphasizes the time period ranging from the Civil War to the present, stressing how the government works and how it has affected man in America. The students are taught to become aware of the complex problems that face this nation and how to examine the reasons for its beginnings and possible outcome. "The program teaches the students to think reflectively and also to increase the critical analytical process," according to Mr. Matheny.

In addition to the general American History program, an honors course involving about twenty-five juniors, is taught by Mr. King. The main objective of the class is to prepare the students for the advanced placement testing for college credit. The students learn to use original sources and research through much reading and writing.

Economics, a senior college prep course taught by Mrs. Brewer, places its main emphasis on the practical aspects and implications of the micro and macro economic systems for the high school student. Throughout the year, various resource people from the community are brought in to share their knowledge and experiences with the students. A special feature is the opportunity students are given to run a simulated business through a computer at Findlay College for a day and learn first hand of the variables involved in profit making.

Six World Affairs students were very lucky to be chosen to represent their classes in order to visit Washington D.C. Each class had its own country to study on this three day trip.

Everything: That's the Use for Music

Lori Zimmerly, Deanna Kroetz and Julie Wilson arrange music pieces for a production.

Darlene Moore, Lisa Wittenmeyer, and Sue Currie are the flutists on the march.

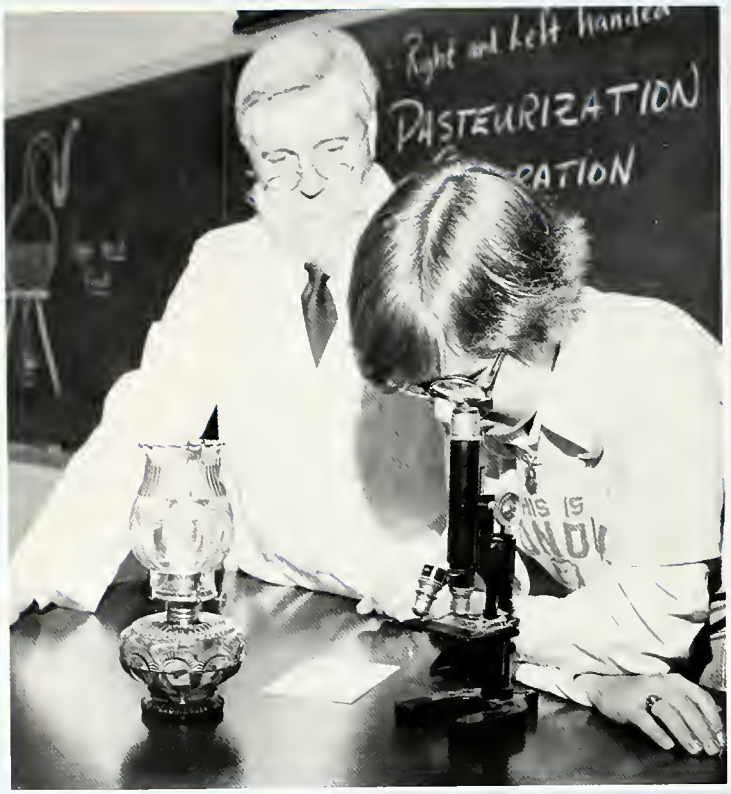
Brad Gerken and Stu Hengsteler play special features on their electric guitars.

"The Hills Are Alive With the Sound of Music . . ." These are the beginning words of a song almost everyone has heard before. What is music? Many people are not able to come up with a suitable definition for it. Music is an expression of art using the sense of sound. It may be heard and interpreted in many different and unusual ways. The songs that the choir can be heard harmonizing on, or the music being created by the band or orchestra is music to some people whereas the sound of silence echoing down an empty school hall is beautiful music falling upon the ears of others. Whatever the true description might be, music in all its forms is a very beautiful and necessary part of our everyday lives.

"A little 'slide' room, please." The gong show band plays their theme.

Louis Pasteur Visits FHS

Louis Pasteur (Tom Reynolds) and Kathy Leathers study a slide under a microscope.



Lori Walker, a Biology student studies a cell on a slide under a high-power microscope.

Remember all the times you've walked into Biology expecting the usual boring and tiresome droning on of a lecture? Well, don't be surprised someday when you trudge in just as the bell rings; something quite unusual might be going on. What? Well, if you have Mr. Tom Reynolds, you may find that he has aged quite a bit overnight. So what, you say — that's the price teachers pay for taking the responsibility of teaching our promising, ingenious minds. No, really he has suddenly become a completely new person, such as Louis Pasteur or Gregor Mendel. He has introduced a new teaching technique that is fascinating to watch and easy to understand. Mr. Reynold's characterizations of different science figures helps captivate students and begins to develop some curiosity and interest among them. So don't think science courses are just the "same old things," it can be fun. Wouldn't it be nice if all the teachers did that every day, then we would never have to see what they really looked like? Hey, that's an idea —

The science department really has a lot to offer to many students by way of Biology, Chemistry, and Physics. Many very interesting things take place in those rooms located on the south end of the building. Just walk down there and take a look and you might see some funny characters swimming around in a tank.

Students in this Biology classroom listen very carefully to a lecture being given.

Two Cups of Flour — 1 Teas. Salt — Sift and Mix

Where is that great smell coming from . . . What's burning . . . Oh! I just stabbed my finger with this needle . . . These are just some of the things you might hear students say when passing the Home Economics area. Students enrolled study cooking, sewing, home and child management. Even boys get into the act by preparing peanut brittle, muffins, etc., in Gourmet Cooking. The only problem, when something is burned, the smell travels down every hallway in the school.

One nice thing, these students learn to be self sufficient for themselves when they leave the protective environment of school.

Mark Johnson and Darlene Delaney share the job of carving a Turkey. Techniques such as this are taught in Gourmet Foods.

PE Classes — Activity Galore

Mr. Mezacapa "patiently" awaits the return of his class from who knows where.

Smelly feet, tired students and run down teachers. That's the way the physical education classes were this year.

Physical Education is a class in which the students get involved in activities they enjoy the most. It provides plenty of learning time so they will know more about what they enjoy doing. If they are active in their classes, they will sure have an exciting year of PE.

The teachers concentrate on getting the students in good physical fitness and keeping them that way. Exercising and running do a pretty good job at that throughout the year. And, of course, that will lead to the smelly feet, tired students, and run down teachers!

"If a strike can't be gotten, you can always settle for a spare." FHS bowling classes are held at the Sportsman Bowling Alley.

Clip and Curl

Simply take four ounces of cream developer, two packets of powder bleach, and two ounces of ultra light blue cream and before you know it, you have blonde hair. You hope! Scrub a dub dub, a twist of the roller, a tease here and a tease there — wah-la, a styled coiffure. These are just a few of the basic things the cosmetology students have to do. There are two classes: Senior girls and Junior girls. These girls are part of the FHS cosmetology program. They attend school for the first two class periods of the day and at 9:20 board the bus for the State Beauty Academy in Findlay. Basic knowledge is learned first then they perform their skills on the general public during the day. The Junior girls attend a learning session in a special classroom and then practice on wigs.

Did you ever know your hair is made up of mainly protein and grows at the rate of one-half inch a month? Just ask these girls anything about beauty work and I am sure they will be able to give you a pretty good answer.

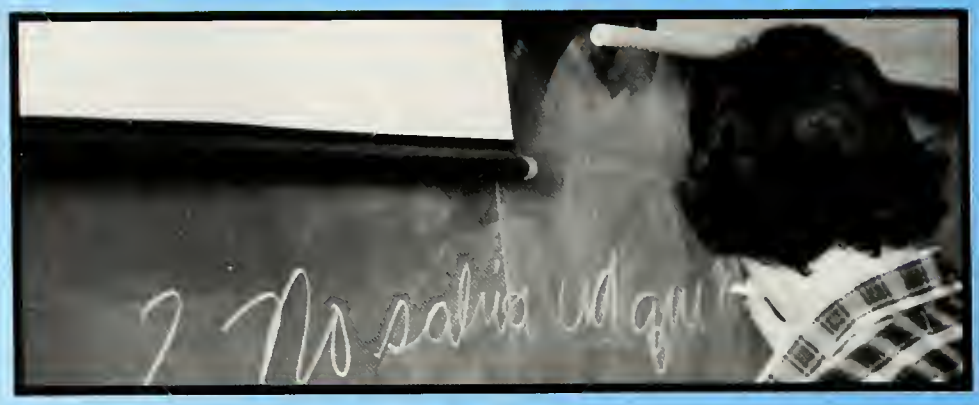
Festival A Success

Mark Davies carefully writes his Spanish homework on the board. "Is it right," he wonders?



The Foreign Language Department, consisting of Spanish, French, German, and Latin classes, involves many FHS students. Their biggest activity, the annual Foreign Language Festival, was held in December. Each student was required to make something representing a foreign country. Creativity and talent were evident, as foods and objects ranging from Spanish piñatas to Dutch Gingerbread houses were brought in. Almost everything was sold, and the Foreign Language Department made a profit close to $400. However, the students' activities did not end in December. They kept busy all year with numerous games and dinners that were not only fun but knowledgeable as well — like learning how to write Valentines in Latin and how to say "kiss me" in Spanish.

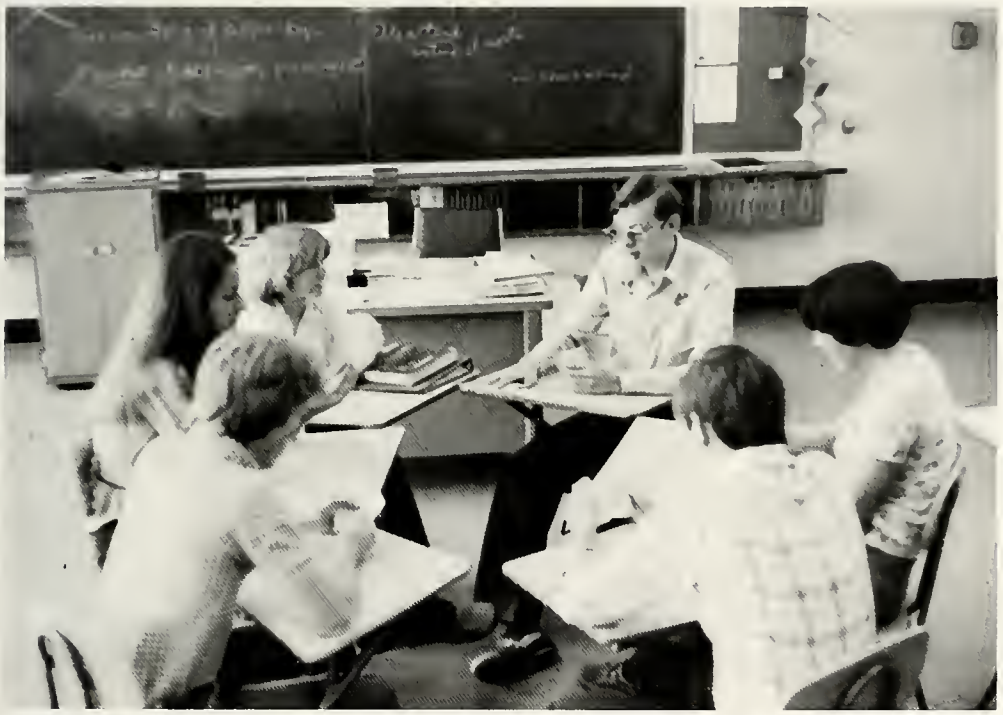
Foreign Languages Offer a Variety of Cultures

Todd Hengsteler, Marsha Seim, Stephanie Egts, John Dindal, Wendy Burger, Gene Farmer all participate in a Latin game of terms called Mythites.



Norma Gonzalez and Molly Omelchuck play a Spanish game with a set of dice while Ziad Shaheen and Ronda Elsea participate in a game involving concentration.

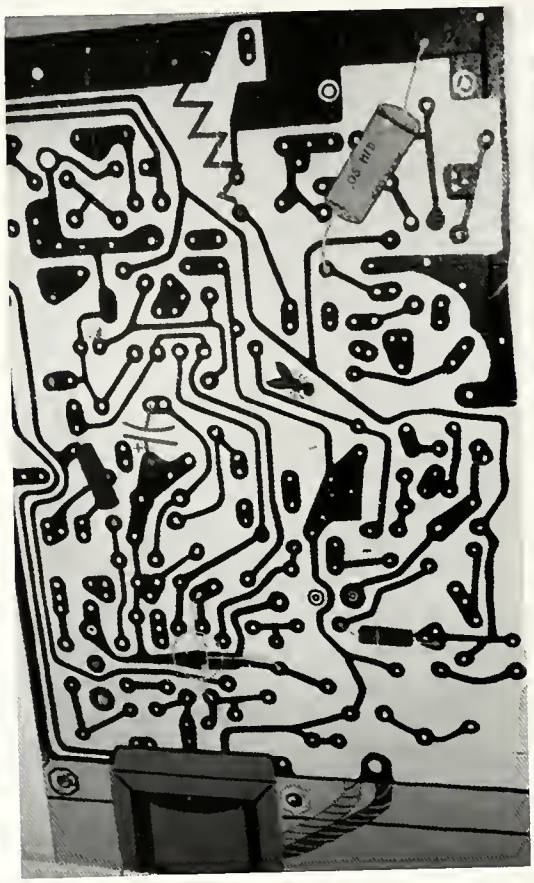
VICA Has 150 Members

Jay Hards takes a last quick look at his notes before the test.

This is an electronic diagram that is painted on the wall and used by the students in electronics classes.



Sue Fraley and Penny Benroth put some finishing touches on the ceramics that they just made.

The FHS chapter of the Vocational Industrial Clubs of America had another active year under Mr. Meyers, 150 members strong. The students, enrolled in trade, industrial and business classes, carried on a variety of activities through the year to fulfill their motto, "preparing for leadership in the world of work."

Six students went to Columbus to visit legislative sessions, to speak with legislators, and to get answers to their questions about "the system." Todd Lee was selected to be a national delegate of VICA. In April, 29 members presented work projects at Regional contest with good results. Of course, the main project — the annual fruit sale — was a successful fundraiser; and the flower sales the various departmental clubs held at specific holidays such as Valentine's Day and St. Patrick's Day were successful.

The Findlay VICA officers for the year were: President, Mike Fagan; Vice-President, Mark Schlacter; Secretary, Nan Layne; Treasurer, Jane Gary; Sergeant-at-Arms, Joe Guitteriez; Parliamentarian, Bob Driftmyer; and Chaplain, Jeff Coldren. Each departmental club had their own set of officers in addition. The VICA queen at Homecoming was Nan Layne.

Board Approves New Changes

C. ROBERT BAKER, Superintendent

JAMES BUSHONG, RCA Corp.

BILL GEAMAN, Cooper Tire & Rubber

Mrs. Hardesty prepares a copy of the agenda for each member of the board.

ELIZABETH HARDESTY, Board President

GERALD KRAMER, Marathon Oil

JAMES FITZPATRICK, Cooper Tire & Rubber.

This school year has been one of change for the Board of Education. As election year '77 passed by, the Board greeted new faces, and honored those who left. Seven year board member, Ronald Kruse chose not to run for another term and was replaced by James Fitzpatrick. Gerald Kramer was re-elected and will serve another four-year term. The new year also brought a new president. James Bushong stepped down to make way for the first lady president ever, Mrs. Betty Hardesty. William Geaman rounded out the five member board.

New policies and ideas for the high school from the Board of Education also marked a year of change. Keeping students from becoming bored of education appeared to be a major aim. Changes in curriculum established new courses at the high school, included a more selective physical education program and several new English classes. It was voted upon by the board to install a small computer in the math department to provide students with a more varied and intense program. Though a student smoking lounge was voted down by a split vote, it is only a question of time before the issue is brought up again. A new school calendar was also adopted by the school this year. The board decided to start school earlier in the year to make up school cancellations due to inclement weather. All of these changes were made for the students with hope that their education will be both fun and challenging.

Fearless Foursome

Dr. Charles W. Manuel

Maybe you've been one of the unlucky in some cases, persons who have in some way or another met up with the principals, whether in his office for skipping or seeing him strolling through the halls with all smiles. The head of the not so popular career is Dr. Charles W. Manuel. He arrived in the 76-77 school year with a large amount of experience and education behind him. He received a Bachelor of Science and a Master's of Education at Wittenberg University and then went on to Miami University to obtain his Ph.D. in Educational Administration. Dr. Manuel has made many great changes for the high school and we look forward to him staying in the school system for many years to come. As Senior Principal with 22 years of service in Findlay, we musn't forget that we also have a woman among this staff — Mrs. Margaret Gibson. She attended Indiana State University, Findlay College, Bowling Green State University, and Miami University to obtain all of her degrees, with the last one being a Master's of Education degree in School Administration. Mrs. Gibson has been a principal for two years. Principal for all the faithful juniors that know him is Mr. Harold E. Gardner. This is his 17th year in Findlay City Schools and his ninth year as principal. He went to Findlay College for his B.A. in Comprehensive Social Studies then to Bowling Green for his Master's in School Administration. Maybe Mr. Gardner does not smile too much, but he is a really great guy. Last but not least, as the saying goes there is Mr. John P. Stozich — status symbol to the lonely lost sophomores. Mr. Stozich has been in the school system for 14 years. He has been a principal for six years and the basketball coach for 14 years. He attended Steubenville College for his B.A. and Bowling Green for a Master's of Education in School Administration. If you ever have a chance to meet these people sometime or another, they will give you a lot of advice which is good for everyone now and then. Remember, your princi**PAL** is always your pal.

62 Years of Experience

Wow, have we got it! What have we got? 62 years of experience, that's what we've got. So what, you say. Well, it's great especially when it's in one of the departments we use often, some more than others. Well what is it! Guidance, that's what. With a total of six counselors, two per grade, we have a pretty strong backbone. Heading this fascinating field is Robert Asel as Department Chairman and Senior counselor. This was Mr. Asel's first year in Findlay High School as counselor, although he has had fourteen years of experience in the city schools. He has an MA in Guidance and Counseling. Next as Senior counselor is Jane Boehringer. With a BS and MA in Guidance and six years in our school system, she also is Teen Red Cross Adviser and AFS Adviser. Next we have the "team" of Junior counselors — Janis Heskett and Carl Fulmer. With five years in Findlay, Miss Heskett received a BS in Social Studies and an ME in Guidance and Counseling. Her extra curricular duties include Student Council and Cheerleading Adviser. She also is in charge of peer counseling and helps out with the Hockey Honies. Mr. Fulmer, a seven year Findlay employee is Director of the Adult Education program. He has a BS in Industrial Arts and Physical Education, and an MA in Guidance. Following next in line are the two counselors for the lonely lost sophomores. Duane Smith, with eight years in our system, has a BA in Education and an MA in Pupil Personnel Administration and an ED.S. as a school counselor. His most important extra job is being the Testing Coordinator. Well, someone has to do it! Sara Thomas brings up the end by taking it away with twenty-two years of experience in Findlay. She had earned a B.S.M. in Music and an MA in Guidance. See what we mean when we say, "We sure have got it!"

Busy as Bees . . .

"Busy as Bees" describes the secretaries well in the main office. If Mrs. Eller is not busy with I.D. cards, pictures, or grade cards, she's probably doing something for Mrs. Gibson. After Mrs. Kingsley straightens out the attendance records, she starts on her 101 other things to do. The other four: Mrs. Tabb, Mrs. Meyers, Mrs. Lewis, and Mrs. LaRue keep the work in the head office running smoothly.

The head secretary, Mrs. Myra Tabb, is responsible to Dr. C. W. Manuel and handles the general office responsibilities, athletics, and depositing money for all of the funds. Mrs. Kay Meyers is also Dr. Manuel's secretary. She is in charge of correspondence, filing, and state and local reports. Mrs. Sue Kingsley is secretary for Dr. Manuel, Mrs. Gibson, Mr. Gardner, and Mr. Stozich in addition to attendance. She has the lovely task of sending out warning letters for excessive absences. In charge of the senior class and student activities is Mrs. Mary Ann Eller. In addition, she is Mrs. Gibson's secretary. Mr. Gardner's secretary, Mrs. Betty LaRue, takes care of the junior class and counselors. Mrs. Luella Lewis is in charge of the sophomore class, student records, and is Mr. Stozich's secretary.

THOSE WERE THE DAYS! A first in the history of a homecoming parade was the faculty float. Jan Heskett, Carol Lowery, Nancy Williamson, Maggie Gibson, and Jim Barnhill are shown riding on the float.

Aaaay! Happy Days are here again as portrayed by four faculty members as they played "Rock-Around-The-Clock" in the first annual Gong Show. 88-fingers Asel, Handsome Hanson, Doolittle Duling, and Fonzerella Hayes present their talent.

Can't get enough to eat. I wonder if that is what Mr. Frank DeFrench is thinking when he attended the football banquet.

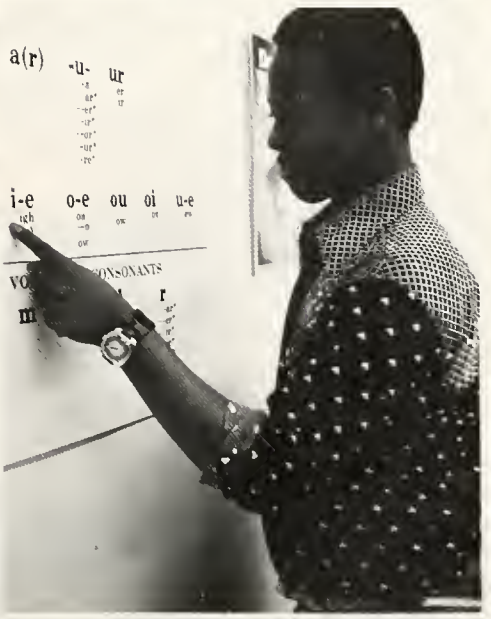
Extra Educational Areas

Mrs. Kathy Crates is very busy getting ready for her next lesson.

MIDDLE: Mrs. Nancy Ruffing talks with a student in an individualized lesson.

ABOVE: Betty Wright works on a homework assignment.

Mrs. Beth Flowers searches for a test to show her student.



Jim Gentry points out the vowel chart on the wall.

The Learning Disability Program at the high school level works with identified L.D. students. These students are selected through thorough testing by the school psychologist. Each student is placed with an L.D. teacher who continues informal testing and writes an individual educational program based on his skill levels.

The Hearing Impaired Program is another extra educational area that students have a chance to receive special instruction.

Pat Ford begins to write his homework assignment on the blackboard.

Mike Grubbs shows Mrs. Nancy Haymond a project that he has worked on.

Time to Eat

The cafeteria workers show their efficiency once again by providing us with nice hot meals four periods a day.

Besides being the school's filling station, the cafeteria is the social center. The mood is set by the rock music pouring out of the jukebox. To the tunes, students eat, play cards, talk, sleep, do homework, or keep rhythm.

The majority of students either buy a hot lunch or brown-bag it, and the other hearty souls use other modes. Vending machines are one, along with candy from the book store, trifles brought back from the area fast-foods places, pastry from occasional bake sales, or just down-to-earth "fasting."

Extra activities include ticket sales, eating contests, and the jukebox caper staged by Student Council last December 21. For each lunch period, the "jukebox workers" substituted the '45 "White Christmas" for one of the popular hits. During each of the four lunch periods, the first student to discover which song was switched received a $5 gift certificate for Finder's Records and Tapes.

Evidently the cafeteria does not "rock" by bread alone.

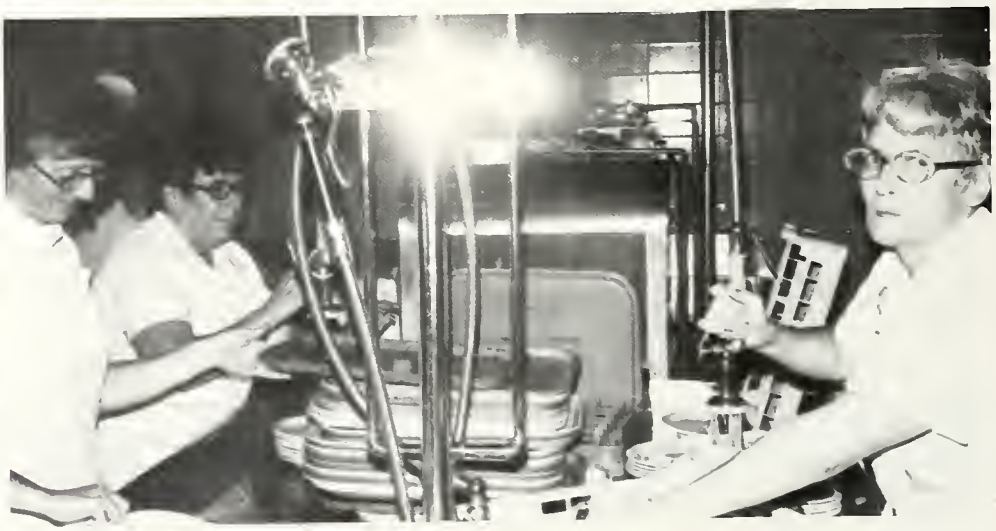
Darryl Gillett pays for his cookies and milk in the lunch line.

CAFETERIA WORKERS: Ardie Depue, Kate Eaton, Margaret Orton, Betty Farmer.

BELOW: Carol Archadle, Agnes Kirkendal, Helen Allen, Marie Krantz, Marge Green, and Margaret Aerni.

Ginny Zink is the head of all cafeteria functions.

MIDDLE: Open up wide. Phil Kunkel shows the technique of eating french fries.



Suzanne Cramner, Madeleine Pingle, and Marion Lemon show how much fun it is to wash dishes after 1,500 meals.

A Clean Sweep For Our School

Harry A. Altman, Director of Maintenance, Operations, and Transportation.

Joe Gomez and Doris Buckmaster take a few minutes out of their busy schedule to do a little talking. MIDDLE: Thelma Boren gives the SAC office a good mop job.

Clifford G. Woodward, Engineer of the high school thinks about the next task that has to be done.

Edna Parks and Marge Angus work each evening on specific areas to make them nice and clean for the next day.

Have you all ever noticed how clean the walls, the blackboards, the floors, the desks, and the windows are in the morning? Or how the cafeteria tables are always in order and how they are properly placed for night activities? The credit goes to our hardworking janitors and matrons. These people can be found after school cleaning and preparing the room for the next day's use.

Sometimes, a strange smell of vinegar is found in the halls. That is a sure clue, that somewhere in the building, the windows are being shined. Many times, one can find them cleaning the restrooms.

Thanks to the efforts of the janitors and matrons, our school always looks nice.

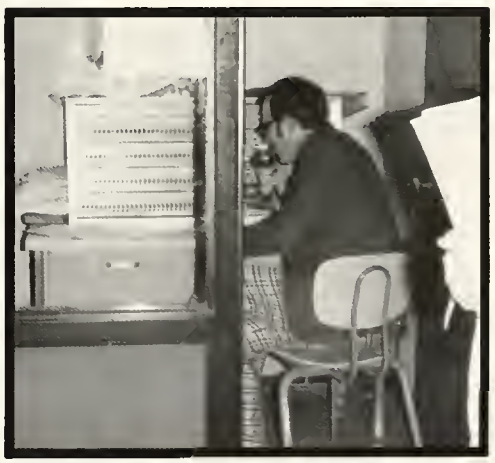
BLIZZARD OF '78

6:00 a.m.: **GOOD MORNING,** this is WFIN. I'm Mike McKitrick and it isn't a very pleasant morning to say the least. There is plenty of that white stuff on the ground and still falling. There is a 100% chance of snow with blowing snow and drifting. 6:10 a.m.: Here is the list of school closings in our area as we have them. Arlington, Vanlue, Leipsic . . . Findlay City Schools has not reported yet, however. 6:30 a.m.: The buses leave the garage and are on their way to pick up the students. 7:00 a.m.: The first students arrive at school. They are covered with snow and it is very cold outside. 7:45 a.m.: First period starts. Kids are looking out the windows at the falling snow and hoping they would be able to leave school early. 8:30 a.m.: Daily Announcements: No announcement on school being cancelled yet. 8:45 a.m.: The commotion began in the front office. Buses started arriving in front of the school, telephones ringing off the hook, noisy classrooms, questions in the air, etc. 9:15 a.m.: Dr. Manuel: May I have your attention please! Students will be dismissed very shortly. All school activities have been cancelled. It is extremely slippery out there so be very careful on your way home. **BELIEVE IT OR NOT** — this was the second time for this type of experience. Snow, Snow, and more snow and school being cancelled due to hazardous conditions. That's what was experienced throughout the winter of '78. **AND THEN IT CAME** — THE BLIZZARD OF '78 — Findlay was hit by the killer blizzard which was the worst in the history of Ohio. It all began on the morning of January 26 at about 3:00 a.m. When the morning newscast came on the air a little before 6:00 a.m., the only word was "terrible" and it was to continue all day. The report to everyone in the listening area was to stay home. Everything was closed. 50 to 75 mile an hour winds are nothing to be strolling around in and these winds caused drifts as high as 15 feet. Findlay was placed under a general state of emergency with the city being paralyzed by the blizzard. Then it happened again: 8:20 a.m., the electricity went off. Some residents were a little luckier than others; their electricity was only off for 10 hours but the not so fortunate folks were without the juice for 40 hours and more. On Friday, the winds and snow let up and now came some of the clean-up. The Ohio Power company still trying to restore electricity to parts of Findlay fought the bitter cold weather. Under the state of emergency declared by Mayor Donald Renninger, everyone was to stay off city streets unless they were employed in a critical operation. Only people with four-wheel drives and snow mobiles were allowed on the streets until the emergency was lifted. The

snow finally stopped at 10:45 a.m. on Friday. By then, 10 inches of snow had fallen. The city was still paralyzed throughout the weekend. People were still not allowed to drive on the city streets, and it was a sight to see people hoofing it with backpacks and sleds.

FINDLAY SCHOOLS FACE MASSIVE STORM REPAIRS: This was the headline on Tuesday, January 31 with still school being cancelled

for another day. As reported by Bob Sterner, Staff Writer for the Courier: Broken pipes in heating systems caused the most problems throughout the school system. In several buildings, up to 30-inch drifts were formed when snow blew through air vents and broken windows. The school's natural gas and fuel oil heating systems were worthless without the electric power to control and circulate the warmth they provide. Problems were not discovered until power was restored and hot water began to circulate into frozen radiators. Broken water pipes spewed hot water in 10 areas of the high school which was the hardest hit building. Supt. C. Robert Baker felt the biggest problem facing the schools will be removing the snow from around buildings. "It is really packed in," he said. "Snow covers ice that's covered with snow. It will take bigger equipment than what we own." Contracting for the removal of snow from the blizzard has already cost "at least $5,000," Harry Altman, director of maintenance, operation and transportation said. "We've already spent $10,000 for contract snow removal this year. In a normal year, we usually only have to contract about $1,500 to $2,000 for snow removal." All in all, I am sure everyone will remember the BLIZZARD OF '78 and students will remember being out of school for another five days in a row. Much excitement, however, was shown when these students did finally return to their regular classroom activities.



Sophomores Take a New Look

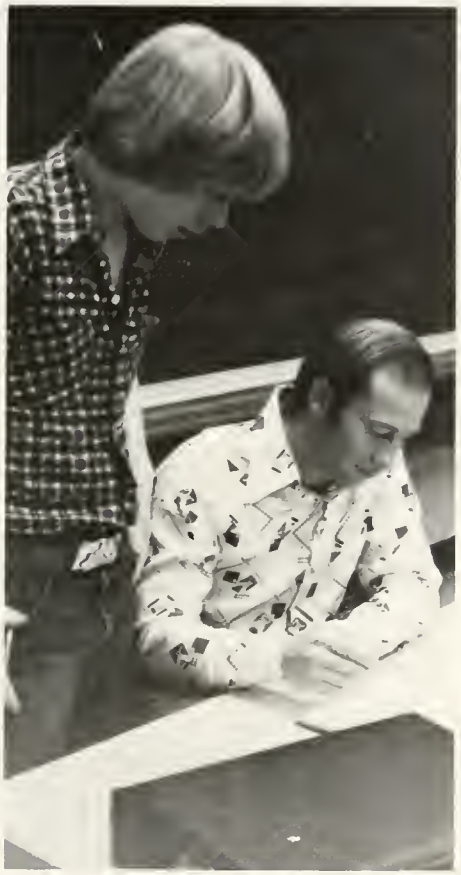
"Where is room 400?" and "When is this class over with?" are two questions every sophomore has certainly asked someone during their first year as high schoolers. These sophomores are a special sort of people with fresh and new ideas for their new school. They participate in a wide range of activities ranging from freezing at football games to dancing at drama club. One new part of the year, and a real help to the sophomores is the Student Activities Center (SAC) which has directed them to all the various activities they take part in. These people seem to be a serious bunch, but as the year progresses the smiles begin to shine. By the time the year has ended, everyone will hopefully feel in place. When asked how they like high school, most reply that it is a new experience and it is something they will never forget.

SOPHOMORE CLASS OFFICERS: Anne Fawley, Sec.-Treas.; Connie Benavides, President; Cheryl Westfall, Vice-President; Mrs. Kay Stoner, Adviser.

Scott Miller and Sheryl Girdler look over schedules on FHS sophomore orientation day.

Ron Neds and his date Ranelle Campbell enjoy the Homecoming Dance with Tim Grant and Lisa Qualkenbush.

Mr. Dee Boyer helps Jack Myers with a problem and also discusses his grade with him.



Mark Wagner plays his heart out for the winter musical, "Wizard Of OZ."

Lori Croy and Rita Kumar discuss the upcoming soccer season in the spring.

Ronda Elsea and Molly Omelchuck make their grand entrance for school.

Potpourri

Stanley Nungester and Lori Street prepare pizza in their family living unit.

Sophomore Terry Schlencher receives his basketball award from Coach John Stozich.

Clay Connell finally got caught by the yearbook photographer.

John Kidd studies all of the goodies that tempt the taste buds at the football banquet.

Michelle Kiser carefully places newspaper strips (dipped in paper mache paste) on a tower of jars. It finally ended up as a plant stand.

Mr. Snowman was one of the many items available at the Junior Class Bazaar.

Miss Kathy Siebenaler, Jr. Class adviser, checks to see if Santa brought her the right candle.

Connie Freeman tries to distract Margaret Bellamy, and Rhonda Reza along with Jr. Class adviser, Miss Susan Grist from all the delicious food by showing them a candle.

Jolly Juniors is a good description of the Junior class. They are seemingly the Happy-go-lucky type with big goals. One of these says a typical Junior is making this year's Prom the greatest ever. That may sound too good to be true — but with their obvious get-up and go, nothing seems impossible. Many students are finding it hard to be a Junior because they are the inbetweenies. They aren't the "Adults" yet, but they feel they are not the "babies" either. This is nothing to worry about since soon they will be the Seniors. Some of the things Juniors participate in are sports, drama clubs, choir, and speech. While this is a fairly limited group, they are members of a large variety of activities. This class gives us good prospects for the future and pride for them now.

The Junior Class Bazaar is just one of the many projects that are undertaken to raise money for the Prom. Once again, this Bazaar was a success and earned the money needed to produce the Prom.

Sue Holtzscher and Bonnie Wingate show off some of the cute little dolls in their life.

A few of the students such as Teresa Blunk and Kathy Treadway dressed up as Santa's helpers.

Jr Class Section "A Victim of the Blizzard of 78"

The Blizzard of '78 sure did take its toll on FHS this past year. Along with the school suffering with broken pipes and loose floor tiles, the Trojan also had trouble.

When the Blizzard hit, pipes on the second floor broke, causing water to go everywhere, including down walls from one floor to the next. One such wall happened to be the west wall of the Trojan Yearbook office.

Upon returning to school after an extended five day vacation, the aftereffects showed up. Eight pages of the Junior Class section were now water soaked and stuck together. (Just imagine a glossy picture in a waxed paper package that has had water.)

We would like to apologize to the class of '79, but things like Blizzards and water cannot be helped.

Study Hall students helped Miss Ackerman sort pictures that had to be reprinted due to the water damage. Have you ever hunted for a specific face within 1,400 unidentified pictures.?

Life of a Senior

What is it like to be a senior? Well . . . besides worrying about homework, trying to buy a ticket for whatever game is that Friday, wondering when your Senior pictures are going to arrive, attempting to meet the deadlines for caps, gowns, college applications, etc., and keeping up with all other activities; most would say it feels great to finally be a SENIOR.

Senioritis manages to hit most of us very early — (try before the school year even begins). It really does after you have already been accepted into college. After school begins; however, the days seem to fly by so quickly for those who are busy. There seems to always be something happening.

College is probably what most seniors are thinking about. To many, it is a tough decision to decide where they would like to go. Hopefully, everyone will end up where they want to be.

The senior year is spent preparing for your next year (whether it be college or a job) and trying to complete everything that has to be done before the end of the year.

One more word for seniors — GOOD LUCK IN YEARS TO COME!!!

Lyell Bellamy begins her duty as a runner for the Student Activities Center.

Jamie Whithaus works on some homework in the main office until they need a runner.

Scott Harshman sings to Celia Cronewett during the musical — Friendship.

MIDDLE: "Oh my!" "Really." says Sandy Reddick to Loni Reusch at the class break.
SENIOR CLASS OFFICERS: Miss Ackerman, Adviser; Deb Goralske, VP; Jeff Gephart, Pres.; Ann Redpath, Sec.-Treas.; Mr. Frost, Adviser.

"Thank you Ladies and Gentlemen," remarks Lisa Robinson at the Football Awards Banquet.

MIDDLE: Carol Conner and Betty Aukerman take advantage of a little extra study time.

Steve Klein and Dave Akin are amazed at the amount of food on that buffet table.

Mike Campbell must be thinking of something serious according to the look on his face.

"You really didn't take my picture," remarks Karen Hayes. I wanted to smile first.

"Smile" says Mrs. Eller to Terri Babcock as she has her student picture taken for the ID card.

A TIME TO REMEMBER!! Randy Mowery, Sandy Doyle and Bob Schutz will always remember.

R-E-M-E-M-B-E-R YOUR SCHOOL!! It gave you the key to a successful career.

Bill Schifferly and Beth Benschneider really enjoyed their senior year especially during the musicals and the new broadcasting class.

Just think Seniors — this is the last year you had to depend on this type of transportation.

"We Made It"

"We made it!" are the three words that best fit Seniors. The senior year is a busy and exciting one. Right from the start, we are bombarded with things to do and deadlines to meet. Such as . . . trying to keep up with your studies, filling out cap and gown forms, completing college application (the best you can and in time), worrying how you did on the SAT, ACT, tests or whatever kind of test, keeping up with your activities, answering school surveys, giving out senior pictures, plus what is happening every weekend tend to keep one busy. Amidst all this activity, hopefully you will take time remembering the ups and downs of your high school years and how there is still a long road ahead.

Steve Lamb and Steve Reichenbach receive trophies for their outstanding football performances.

Lyell Bellamy listens closely as Don Brown tells about his mishap on the football field.

Marilyn Pollack carefully tears down locker decorations to replace with decorations for the next week's game. Probably, she will refill the inside with many goodies.

Carol Deidrich catches 40 winks in the classroom before the class starts.

SMILE! You're on Candid Camera as photographer John White prepares to snap another picture.

Twelve Long Years Completed

BELOW: Come on Quirkus, the creek isn't too big for you to jump exclaims Scott Harshman.

This is a view of the College Career Day held at Findlay High School on October 20 where Seniors had a chance to collect information about colleges and ask questions about their futures. About 100 colleges set up their materials for review by the students.

"I won't miss your eye this time," says Todd Garlock. "Cause the third time is always the charm." Jamie Whithaus is not so sure about that, however.

WHY FINDLAY?

Going away to school has its advantages. But have you considered the advantages of going to a school near your home?

1. The people you've made contact with during your high school years don't lose track of you for four years. They can watch you grow from a high school graduate into a mature, thinking adult — and perhaps provide some of the guidance and experiences that help you along your way.

2. The people you'll meet at college — local teachers, principals, and business people — are all leaders in your community. And if you plan to live in the Hancock County community after graduation, these same people will be in position to hire you for your first job.

3. You can live at home and save some of the high costs of education.

4. And if you live at home, you're more likely to keep up with a part-time job — helping you make the money you'll need at college and the contacts you'll need when you're ready to start your career.

How about it? Is it worth looking into? Contact the Admissions Office at Findlay College, 422-8313.

Today's graduates
will be
tomorrow's leaders.

We salute you!

Let It Snow — Let It Snow

"Let it snow, let it snow, let it snow." After this year's endless amount of snow no one will ever want to utter those words again. The abundance of snow caused a total of 19 days missed from school.

With all that vacation, some of it was spent wrapped up in blankets trying to keep warm when the city was without power and there were numerous activities going on. Trying to keep "cool" with parents around is almost impossible; the solution for it was to get out. Some of these were dangerous and death-defying feats as in the case of a few people who practically killed themselves while sledding on the slopes. Bumper-hopping was another courageous sport and sometimes just "slip sliding away" on the icy roads. What about the deadly art of lifting a snow shovel. After this blizzard everyone must agree that they would love to do away with snow shovels forever. Even among these activities, no casualties were reported; only sore muscles and sets of aching bones.

Joe Dufford, Kevin Veit, and Bob Gettys use a little of their spare time to help shovel the excess snow.

DRIFTS — DRIFTs — DRIFts — DRIfts — DRifts — Drifts — drifts — That's all there was for weeks upon weeks.

ABOVE MIDDLE: There was so much that it seemed like it was shoveled away a spoonful at a time.

ABOVE: How would you like to go to school here???

MIDDLE BELOW: At least Franz Klamer put his skis on before skiing down a slope. I guess Miss Heskett wanted to try it on foot first.

BELOW: "Oh! Is it cold," remarks Lisa Birchfield and Diane Cassidy as they enjoy a little snow play time.

STOP!! Stop where? You can't even see the driveway let alone the stop sign at the end of the front driveway.

The lonely deserted parking lot.

ANTARCTICA??? No, it is the Findlay High School court yard after the Blizzard of '78.

"Pit . . . Pat . . . Blunk . . . Tink . . ." Introducing the FHS Corridor Orchestra playing, "Once upon a Blizzard."
